A CHINESE MASON.

A Funeral That Gave Pittsburghers Something to Talk About.

(REGULAR ASSOCIATED PRESS REPORT.) PITTSBURGH (Pa.) July 22.—Lee Jim Nun, a Chinaman who lived at Derry and died one week ago, was puried here Sunday with Chinese and fasonic rites. He was a Mason and more white people than Chinamen were at the grave. Lee Tom Ma of Cincinother name is Rev. Y. Thomas, had charge of the ceremonies. There was subscribed by the Masons

Thomas, had charge of the ceremonies. There was subscribed by the Masons \$500 to cover the expenses.

One thousand people attended the ceremonies in front of the house. They consisted in placing two tables on the sidewalk. On the tables were placed a large roast of meat, two roasted chickens, a plece of fat pork, nuts, oranges, apples, candy, rice and tea. The coffin stood on two camp-stools in the gutter. Joss and incense sticks were burned and Chinese holy water was sprinkled on the remains. In the coffin were money, tawels, soap, combs, a fan and something to drink. One eye of the dead man was wide open. This was regarded as a good open by the Chinamen. Dan Do of Chicago, on horseback, led the funeral procession. He carried a large three-cornered red banner and an ugly-looking knife by his side, which he swung through the air in a menacing manner to drive away the bad spirits. Behind him was a band of music. All the eatables, money and other offerings were thrown into the grave. Five thousand people were at the ceremony.

Padie at Coney Island.

Pasic at Coney Island.

NEW YORK, July 22.—Coney Island had about one hundred and fifty thousand visitors Sunday. The exodus to other places was in proportion. A panic marked the embarking of steamboat passengers at the island. Fully twenty thousand people were crowded and jammed into the space near the landing-gates. Men, women, mothers with babes in their arms and little children were crowding and struggling in wild frantic efforts to break through the gates. One woman's baby was torn from her arms and carried twenty feet away. At the edge of the crowd women were pushed down, or fell and were trampled under foot. No serious injuries are reported.

A Hend-end Collision.

BRADFORD (Pa.,) July 22,-A headend collision between the passenger train from Olean and a freight train on the Western New York and Pennsylva-nia Railroad near East Smithport this afternoon, resulted in bruises and cuts for the train hands and many of the passengers, though none were fatally hurt

A Reign of Terror Among the Negroes of Florida.

(REGULAR ASSOCIATED PRESS REPORT.)

REGULAR ASSOCIATED PRESS REPORT.)

LIVE OAK (Fla.,) July 22.—Rev. Gillislee reports a reign of terror among the negroes of Lafayette and Taylor counties. He says that the churches are being raided by white men, congregations dispersed and pastors driven away. Rev. Gillislee is presiding elder of the Live Oak district of the State conference of the African Methodist Episcopal church. The counties mentioned are in his district, and he recently returned from an attempt to fill his appointments. According to his story, he was roughly treated. He says that he was preaching in Lafayette county to a large congregation when a crowd of armed white men came in to the church and stationed themselves near the pulpit. The leaders asked him: "How long do you expect to remain in this county and live?"

Then the whites began to shoot and Gillislee and the congregation ran out in a panic. Gillislee went to Bramford, ten miles distant, making the trip in an hour. He next went to Taylor county, which adjoins Lafayette on the west, but was again driven out. While preaching at night he says that about twenty white men came in and stationed themselves about the pulpit. Gillislee was frightened, but kept on preaching. Finally the mob shot out the lights and the negroes ran out, many being trampled upon. The mobs so far appear to have shot no one, their object seeming to be to create terror. Gillislee says the negroes are frightened nearly to death, and are leaving rapidly, many deserting their property. The preacher seems unnerved by his experience, and will never go to Lafayette or Taylor again. His headquarters are in Jacksonville, and he has a good reputation. Lafayette and Taylor are the counties where so many negroes have been lynched for outraging white women. In Lafayette there have been over a dozen lynchings in the last few months, and there is no question that the reported assaults on women have greatly embittered the whites against the negroes.

HELENA (Mont.) July 22,—The Helena Assay Office today received the biggest single deposit of gold dust ever made in Helena. It is over three thousand ounces and worth about \$55,000. It is the first shipment for the season from the placer mines on the Yukon River in Alaska and was brought to Seattle by steamer.

Ex-Gov. Rice Dend. MELROSE (Mass.,) July 22.—Alexander H. Rice, ex-Governor of Massachusetts, died at Langwood Hotel this afternoon from paralysis.

CURSES FOR THE DEAD.

AN AGED WOMAN TELEGRAPHS TO

Death-warrant of Her Son-The Government on the Assassina-

(REGULAR ASSOCIATED PRESS REPORT.) NEW YORK, July 22.-A Herald dispatch from St. Petersburg says that the Novoe Vremya publishes a telegram re-ceived by Mme. Stambouloff from the aged mother of Milaroff, which says: "Mourn over the blood-thirsty murder-er, who, while making merry watching gypsies dancing and singing in the monastery of Bourges, signed the death warrant for my son. God gave me strength when I saw the murderer swimming in my own blood to console myself. I send my curses to his rotting body.'
In descri

In describing the scene connected with M. Stambouloff's funeral the same journal says that educated people were going about the streets of Sofia calling going about the streets of Sofia calling upon the public to curse Stambouloff's body for the last time. The Russian press, after commenting with tact and dignity upon the assassination of M. Stambouloff, speaks contemptuously of the implacable hostility shown to Russia by the journals of England, Germany, Austria and Italy in blaming this country for an outrage to which it was quite a stranger.

PRIVATE VENGEANCE

PRIVATE VENGEANCE. SOFIA, July 22.—The government has been making inquiries into the murder of ex-Premier Stambouloff and it is claimed that the facts elicited show that the crime was an act of private ven-

HIS GRAVE GUARDED. HIS GRAVE GUARDED.

LONDON, July 22.—The Sofia correspondent of the Times telegraphs that the grave of Stambouloff is guarded by police, owing to threats which have been made to disinter the remains. The feeling here and in the large towns is one of disgust and dejection at the crime. The crown lawyers are actively prosecuting an inquiry, but complain that they are not receiving the necessary co-operation of the police.

Eseta a Laughingstock.

Eseta a Laughingstock.

CITY OF MEXICO, July 22. — The newspapers here assert that Gen. Antonio Ezeta, formerly President of Salvador, is making himself the laughingstock of the American people by his bombastic interviews published in San Francisco, and wired all over the United States. Ridicule is thrown on his statement that he will invade Salvador where his unpopularity is said to continue.

A RATIONALE.

The Verbal Tug-of-War is on Again.

Horr Turns His Attention to the Ratio.

He Says That Harvey Seems to be "Stuck" on the 16-to-1 Theory.

The Halving of the Yardstick and Doubling of Values-"Coin's" Auffor Says Senator Morrill's Statements Are Wrong.

(REGULAR ASSOCIATED PRESS REPORTA CHICAGO, July 22.—"Back dates" were thrown to the dogs today in the debate between Horr and Harvey. It was more than ever a case of Greek meet Greek and as the interest in the tug-of-war heightened, it was at once seen that the days of Pericles as well as 1792, 1873 and other years, no matter how historic or important, were all barred more or less in favor of 1895, Horr opened the debate with a writ-

ten argument touching the impossibil ten argument touching the impossibility of maintaining a fixed ratio between gold and silver. As a result of experience, he said, all civilized nations had discarded silver as standard money. It was useless to exploit long tables of ratios to show whether a double standard could be maintained. The world had pronunced against silver. had pronounced against silver.

Harvey said that he had been called

on by letters and telegrams to give statements by Blaine, Ingalls and oth-ers concerning the demonetization act. He said that the words at his disposal in the debate would not admit of it. Taking up Horr's eulogy on Senator Morrill, delivered on Saturday, he Morrill, delivered on Saturday, he charged that Morrill erred in saying that no silver dollar was coined for fifty years prior to 1873. Harvey read from the report of the Director of the Mint, showing that silver dollars in greater or less amounts had been coined nearly every year. The fact was that Morrill was a bank-stock holder with a bank-stock holder's prejudice. He called upon Horr to explain.

Horr said that Morrill had not meant that not a dollar had been coined, but that none to speak of had been. At most, it could be said that Morrill had made a mistake in stating the amount of silver coined during the life of the government. Horr declared that the Insinuation that because Judge Morrill was an owne of bank stock, he was not believed to be too contemptible for consideration.

Harvey said that in raising the point of collage of the stating the point of collage and the said of the said

was not believed to be too contemptible for consideration.

Harvey said that in raising the point of coinage of silver prior to 1873 he wanted to establish a fact in history which had been obscured by false statements that such coinage had not taken place. He wanted to make this answer in the presence of the goldmen. Proceeding, Harvey said that he did not mean to reflect on any man's integrity because he was a bank-stock holder. He merely wanted to show that men were swerved in their expression of facts by their interests.

Harvey then defined scientific bimetallism to be the free coinage of both gold and silver at an assumed ratio; a change of size of the metallic dollar when the aparity between the gold and silver should require; the option of both

lver should require; the option of both ndividuals and the government to pay n the cheaper metal. He held that under these conditions silver would not depreciate because there would be an unlimited demand at the ratio fixed by law, and no man will sell his bullion below the price at which he could have it coined. Harvey submitted a table

it coined. Harvey submitted a table to show that from 1687 up to 1873 the commercial ratio had remained remarkably close to the legal ratio, notwithstanding the demonstization of it by England and another of the great nations of the Old World.

Horr said that this matter of ratio has little or nothing to do with the question. The fact was that all the civilized nations of the world refused to civilized nations of the world refused to recognize silver except at its buillion value. For us to attempt free coinage alone was not the matter. Horr then took the proposition of Harvey's book that making the dollar one-half its present value would double the value of everything in the United States except debts. Horr pronounced this absurd, saying, "We might as well say that if we cut our yardstick in two it would double the amount of cloth in the country." He said Harvey seemed to be "stuck on sweet 16 to 1." In his book he proposed to keep metal value at a parity by reducing the amount of gold in the gold dollar. Carried to its legit-imate results, the ratio would become 16 imate results, the ratio would become 1

imate results, the ratio would become 16 to ½, or 32 to 1.

Harvey proceeded to argue that both gold and silver were the measure of value until 1873. Referring to the cutting of the yardstick in two, Harvey said that the gold men had doubled the yardstick in 1873; He asked whether if helf the gold were destroyed, the value of the yardstick in 1873; He asked whether if the gold were destroyed, the value of the yardstick in 1873; He asked whether if the gold were destroyed, the value of the yardstick in 1873; He asked whether if the gold were destroyed, the value of the yardstick in 1873; He asked whether if the gold were destroyed, the yardstick in 1874; He asked whether if the gold were destroyed, the yardstick in 1874; He asked whether if the gold were destroyed, the yardstick in 1874; He asked whether if the gold were destroyed, the yardstick in 1874; He asked whether if the gold were destroyed, the yardstick in 1874; He asked whether if the yardstick in

yardstick in 1873. He asked whether if half the gold were destroyed, the value of the gold dollar would not be doubled. Horr shook his head.

Harvey said that he would illustrate it in another way, which the farmers would understand. If half the wheat crop in the United States were destroyed, would not the price of wheat on the Chicago Board of Trade be doubled? In demonetizing silver in 1873 the gold of the yardstick had been doubled. The friends of silver were merely asking for the restoration of the measure by readmitting silver to colnage.

Heat age.

Horr in reply to the charge that the demonetization of silver cut the value of products in two, said that if that were true prices would have at once dropped 50 per cent. The fact was that they did not. If the destruction of half the wheat crop would raise prices fourfold, the demonetization of silver did not destroy it.

fold, the demonetization of silver did not destroy it.

Returning to the attack Horr said that Harvey did not care for ratio. What he wanted was a cheap dollar, and the cheapening of the emoluments of labor. That was the most prosperous country in which its workmen were best paid.

Harvey said that a dear dollar and a cheap dollar were comparative terms to be measured by a man's circumstances. If a gold dollar was worth more than a silver dollar, some more costly sub-

four millions of workingmen out of employment, and had put some of them in prison because they objected to having their wages decreased.

Harvey promised at the proper time to show the logical relation of the gold basis to the workingmen.

Horr said it was in 1879 that we resumed specie payment, and the only money of financial redemption was gold. He asked was distress abroad in the land from that on? The fact is, the years between 1879 and 1892 found our people better employed and at better wages than in any other same number of years since this government was formed. (Applause.) Four millions of men today out of employment. Where did you get your figures?

Harvey. I said from two to four millions.

did you get your figures?

Harvey. I said from two to four millions.

Horr. Two to four millions? Four millions is out of the question. Two millions is just about as bad. There is not any truth in either statement.

Harvey. As to the prosperity of this country between 1879 and 1892 you could not break down a great nation like this in one year. It has taken a short period to bring us to the bitter cup of disappointment and distress. I know that every four years the political parties have charged each other with having destroyed the prosperity of the previous four years. (Applause.)

Continuing, Harvey asked Horr flot to refer to the "prosperity" of the country from 1873 to 1895. The word "tramp" was coined in 1873 and the United States census shows that depression has been increasing at a disproportionate ratio. So has the number of penitentiary convicts, persons confined in almshouses, insane asylums, and of suicides. The prosperity that has built up millionaires and multimillionaires and strewed this country with millions of tramps and paupers and men that do not know how they are going to provide for their families in the coming year. (Applause.) A change in relative production had no effect as long as the mints were open to the colnage of the two metals. (Applause.)

Horr. I have never said that the cheap price of silver was on account of its over-production. Silver has be-

plause.)
Horr. I have never said that the cheap price of silver was on account of its over-production. Silver has become cheap in this world just precisely the same as wheat and Iron and zinc and lead and other articles have been cheapened. Just precisely for the same reason. (Applause.) All of these articles have been cheapened by the natural laws which govern the production of every substance known to the producers of the world. ucers of the world. W. D. Wilcox of Chicago. How about

gold?

Horr. Gold the same. I am glad you asked me. Gold depreciated in value in less than one hundred years 50 per cent. It is cheaper now than it was in 1873. All articles that can be produced by inventions are observed. by inventions are cheaper than they were before the invention was made. Every manner which brings machinery into play and puts less human toil into production cheapens the article. The whole trend of civilization is to cheapen human products and the standard of the stan human products, gold as well as silver and wheat. A large number of the ar-ticles today produced in the world have not been decreased in value at all by the demonetization of silver, but sim-ply because the laws of production because the laws of production crowded down the price.

questions were submitted from the audience. The session adjourned until 10 o'clock tomorrow.

STATEMENT OF SENATOR SHER-MAN.

MANSFIELD (O.,) July 22.—In the

Harvey-Horr debate at Chicago on Sat-urday Horr said that there was a provision in the act of 1873 for a 364-grain dollar worth £5, which was afterward struck out in the Senate before the bill

struck out in the Senate before the bill was passed. Harvey denied that it was struck out by the Senate and said if that were so he would stop the debate right there.

In an interview today Senator Sherman stated that this provision was added to the bill after it reached the House at the instigation of the citizens of California, who produce both gold and silver, but that it was struck out when the bill reached the Senate. Senator Sherman also disputes a number of Harvey's statements.

KING JUAN'S ARMY. Another Batch of Servian-Brazilians

Coming to California. (REGULAR ASSOCIATED PRESS REPORT.)
NEW YORK, July 22.—A cablegram

eceived from Puerto Cabello, Venezureceived from Puerto Cabello, Venezuela, state that another colony of Servian-Brazilians sailed from that port for

join King Juan Miguel and his army of
Brazilians, who departed from New
York in wagons on Friday for Southern
California.

Before King Juan left the metropolis
he arranged with the interpreters to

he arranged with the interpreters to meet the next party at the steamer and fit it out with another caravan and start it westward. King Juan left Jersey City by rail for Washington, where he will spend a week with the Brazilian Minister and join his caravan when it arrives at the capital.

A REVOLUTION.

Forced Marches from Venesuela inte Colombian Territory.

(REGULAR ASSOCIATED PRESS REPORT.) COLON (Colombia,) July 22.-(By Atlantic Cable. Associated Press Copyright, 1895.) A report reached here tha right, 1895.) A report reached here that a revolution has broken out in three of the departments. News was received from Colombia early in June through cable dispatches to the Associated Press of a fresh outbreak at Barranquilla which was said to be due to forced marches into Colombian territory from Venezuela.

The success of Gen. Alfaro's revolutionary movement in Ecuador has been expected to reawaken the revolutionary spirit in Colombia.

Fresh Discoveries Made by Police.

Another Warrant Demanded for H. H. Holmes.

Mers. Connor's Nephew Thinks That She Has Probably Been Slain.

Mrs. Pitzel in a Hysterical Condition. The Detectives Think She Knew of the Fraudulent Scheme to Get the Insurance.

(BY TELEGRAPH TO THE TIMES.) CHICAGO, July 22.—(Special Dispatch.) H. H. Holmes will be charged with murder in Chicago tomorrow morning. A warrant for his arrest on that charge will be sworn out by A. Minier, nephew of Julia L. Conner Muscatine. Ia. While the warrant cannot be served at present, it will be acted upon the instant Holmes is freed from charges pending against him in Phila-

Minier believed, until the finding of the letter from Andrew Smythe, the father of Julia L. Conner, that his aunt was alive but the discovery that the letter sent to her parents was a for-gery and that it was evidently dictated by Holmes and followed by a hypocritcal letter of inquiry from him as to her

whereabouts, changed his opinion. Mrs. Carrie Pitzel was in Chicago today. She was in hysterics a large part of the time. Every few moments she would jump to her feet and scream out: "My children! O, my children!" Detectives Norton and Fitzpatrick spent an hour and a half with her this afternoon. She was subjected to cross-questioning. When the interview was ended, both officers were satisfied that Mrs. Pitzel knew that Holmes and her husband in-tended to defraud the insurance company by using the bogus body as that

he had on his life. Until Alice identified the body at Phil-

bhe demonetization of silver, but simply because the laws of production have crowded down the price. I can get nearly twice as much gold for a day's work following the plow as I did in 1894. The people in the country are paid in gold for their work; so they were in 1860. Wages are 70 per cent. higher paid in gold for the same amount of work than in 1860. Has not gold depreciated then when you measure it with the great commodity of human toil? What I find fault with is that the silver men invariably leave out of their calculation this article of labor, and the article of labor is, the greatest article known in the civilized world. Cut down the pay of labor and you prarlyze the entire business of any nation. The men who do the work especially in a republic like ours are the men who consume.

Harvey. Mr. Horr says that everything has cheapened, including gold. To say that gold and produce cheapen simultaneously is a flat contradiction. You buy gold by exchanging other products for it. When it takes more property to buy gold than formerly gold has risen. Instead of becoming the pold and produce dearer and you paralyze the says to the laboring man: "You can buy more with a gold dollar now than you ever could," and then turns to you and says that gold is growing cheaper all the time.

This ended the debate for the day and questions were submitted from the audience. The session adjourned until 10 o'clock tomorrow.

beneath No. 703 of the building on the Sixty-third-street front.

"Let us see if we can find anything over there," suggested Fitzpatrick. Horton proceeded to thrust his pick into the ashes. Finally the pick struck something in which it stuck. A piece of musty cloth was drawn out. It was stained. When carried to the light it was found that the clothing was half of a suit of underwear made for a woman. It was taken to Inspector Fitzpatrick, who made a careful examination and expressed the opinion that the stain upon the garment was blood.

SEARCHING THE "CASTLE." CHICAGO, July 22.-The search for the bodies of the missing Williams girl was resumed at the "castle" of H. H. Holmes, the suspected murderer, today, and in a noosed rope, stained dark about the knot, the police think that they have made an important discov-The dark spot, the police immediately concluded was a blood-stain The length of the rope is such that were the plaited loop attached to the wall upstairs of Holmes's secret dumbwaiter shaft, a body hanging from the noose would just clear the floor at the bottom of the shaft. This coincidence convinced some dectectives that Holmes's alleged victims had been pushed through the upstairs door to the dumb waiter, and strangled to death in

dumb waiter, and strangled to death in the shaft below.

During the day a second wall in the basement was found by the detectives. There are two doors leading into the apartment thus created, and each one was securely locked. It was reported today that Pat Quinlan and his wife had been arrested and given an experi-

was securely locked. It was reported today that Pat Quinlan and his wife had been arrested and given an experience in the "sweat-box." This report, however, was emphatically denied by the police. Quinlan was employed as a janitor by Holmes here, and is believed to know something about the alleged murderer's doings.

Mrs. Pitzel is back in Chicago after her trip to Toronto for the identification of the bodies of her children. She is now ready to tell all that she knows regarding the swindles, and the measures to carry them out, but she says she was kept in ignorance that any of them entailed much loss.

Bones and articles of clothing were turned up in the basement of Holmes's house. Some of the bones resembled the bones of human feet. In a chest, holding the secret belongings of Holmes, the police today found a vest identified as one long worn by Holmes upon which were dark stains resembling blood. In a box were found a linen shirt and other articles of underwear. The shirt had the initials "G. B. D." worked in red letters. The box was found under the floor, and was covered over with a layer of fire brick. In the cellar near where the bones were found, a woman's shoe was turned up, with evidence of fire on the

bottom of the sole. The detectives announce that in their opinion the house has been constructed for the purpose of deliberate slaughter. More care than ever will be taken in searching the

H. H. Holmes will be charged with

premises.

H. H., Holmes will be charged with the crime of murder in Chicago tomorrow. A warrant for his arrest on that charge will be sworn out by A. Minier, a nephew of Julia L. Connor of Muscatine, Iowa. Holmes will be charged in the warrant with having murdered Mrs. Connor some time between the 1st of August and the 1st of November, 1892. The warrant will be served the instant Holmes is freed in Philadelphia. Minier was moved to swear out the warrant by a letter from the father of Julia Connor, addressed to Holmes. This letter is as follows:

DAVENPORT (Iowa.) Nov. 1, 1892.

To H. H. Holmes: Yours of October 1 at hand and contents carefully noted, and it astonishes us very much that you write to us making inquiry about our Julia L. Connor. We thought you knew all about her whereabouts and were thinking about writing to you to know where she is. We have never heard from her since last December. She then wrote us that she was going to leave Englewood on account of Connor making threats that he would take her child away. He said he would take her by fair means or foul. Mr. Holmes, we were in hopes all the time that you were in communication with her and that if anything was wrong we would hear of her from you. By your letter we are thoroughly astonished, as we know not whether she is alive or dead. Your letter makes us very happy. Mr. Holmes, if you should hear anything of her let us know and relieve the present unhappiness of an old father and mother. Respectfully, (Signed)

A. SMITH.

This letter Holmes received and concealed. It was sent by him or one of his confederates to Smith. In a "latter."

(Signed)
A. SMITH.
This letter Holmes received and concealed. It was sent by him or one of his confederates to Smith. In a letter sent from Englewood the handwriting of Julia Connor had been imitated and her name forged at the bottom. The letter contained the statement that she was going to St. Louis.

HOLMES MEETS HIS WIFE. PHILADELPHIA, July 22.—At his own request, H. H. Holmes, insurance PHILADELPHIA, July 22.—At his own request, H. H. Holmes, insurance swindler and alleged murderer, was brought into the office of Dist.-Atty. Grgham today and allowed to make a statement. It consisted substantially of a repetition of the Hatch story, and, despite a rigid cross-examination, he persisted in his previous statements. When Holmes was brought into the room, his wife, a young and rather pretty blonde, was present. When their eyes met they seemed to shrink from each other, the woman especially manifesting a feeling of disgust and horror for the much-accused man.

To prove his assertions, Holmes produced the diary kept by himself and wife, in Toronto, in which he alleges that he gave the Pitzel children to Hatch. The diary would have confirmed some of his statements had not his wife given additional information. She declared that while they were living together in Toronto, Holmes went away for two days, saying that he was going on a fishing trip. When he returned he was tired and there was mud on his trousers.

THE SEARCH FOR HOWARD PIT-DETROIT (Mich.,) July 22,-The search for the missing Howard Pitzel, who is supposed to have been murdered in Detroit by H. H. Holmes, was resumed here today by Detective Geyer of Philadelphia, aided by the local force. As yet there seems to be no positive information that the little boy

positive information that the little boy came to Detroit.

A belief exists that the lad was killed before arriving here; that the body was brought to Detroit and destroyed, or that, after digging the hole in the rear of the Forest-avenue hotel. Holmes became frightened and placed the body in a trunk, taking it with him to Canada. Geyer declares that the statement that Holmes has admitted having killed Howard in Detroit is false and silly.

TORONTO WANTS HIM. TORONTO, July 22.-If the coroner's jury finds Holmes guilty of the murder of the two Pitzel children, which is almost a foregone conclusion, papers will at once be issued demanding his immediate extradition.

A COAL COMBINE. The Output of Five Southern State to be Controlled.

(REGULAR ASSOCIATED PRESS REPORT.) CHICAGO, July 22.-A special dispatch from Chattanooga, Tenn., says that within the next three months the manufacturers of the South are to feel the grasp of the biggest coal combine ever formed. It is to embrace and con-trol almost the entire output of nearly all the mines in Virginga. Kentucky,

Tennessee, Georgia and Alabama. This movement was started months ago and several meetings have been held, the last one at Lookout Mountain two days ago. For more than a year prices on coal and coke have been going down and down until coke is now being manufactured and coal mined at a dead loss to the companies. Every mine and every coal-dealer has put its product on the market at whatever figure it could bring. It is to establish a standard of

the market at whatever figure it could bring. It is to establish a standard of prices that the combine is to be formed. In short, the purpose of the organization is to advance the price of coal to all consumers, but especially to manufacturers, 25 per cent.

There were nearly thirty representatives of the big mines at the meeting on the mountain. Altogether the combine will include seven-eights of the coalmining interests of the South and represent millions of dollars. The mines interested are located in what is known as the seven chief mining districts of the South. At present there are no officers except, Pratt, of the Jellico mines, who was made temporary president until the permanent officers are named. One effect of the demoralization in the price of coal and coke has been a gradual decrease in the wages of miners until the scale of wages is now lower than it was ever known to be in the mining districts. The coal men claim that if the combine is formed they will be able to restore the wages of the miners to their former scales.

An advance of 25 per cent, has already been made on steam coal at Atlanta and a similar advance will be ordered in all the other Southern cities.

The Sinking at Breux. BREUX (Bohemia) July 22.—It has been definitely ascertained that twen-ty-five houses have been destroyed and firty-nine partly destroyed by the re-markable sinking of the earth here. The disaster has turned nearly twenty-The disaster has turned nearly twenty-five hundred persons out of their homes, and it is feared that other houses will collapse in the same district.

A Savings Bank's Deficit.

WILLIMANTIC (Ct..) July 22.—The vaults of the Dime Savings Bank were opened today and a search made for securities and cash. This resulted in placing the deficit at \$26,900 at the least

SEVENTEEN PERSONS REPORTED

Great Uncertainty as to the State Affairs in the Jackson's Hole Country, Apprehension for the Safety of the Princeton Students Now In.

Wyoming. Renegades Return to the Reserve

Bringing the Bodies of Four Dend Bucks-A Crack Militia Company is Ordered Out.

(REGULAR ASSOCIATED PRESS REPORT.) SALT LAKE (Utah.) July 22 .- A private dispatch from Market Lake, Idaho to the Associated Press says that seven-teen persons were killed in the Indian troubles at Jackson's Hole, Wyor, on the 15th inst.

MARKET LAKE (Idaho,) July 22,-On July 13 thirty men left Jackson's Hole to arrest all Indians breaking the Hole to arrest all Indians breaking the game laws of Wyoming. In Hoback Canyon they surprised a camp of seventeen Indians and took them all prisoners, and started with them for Jackson's Hole. In the Canyon the Indians tried to escape, and all the Indians were killed excepting one papoose, who was brought into the Hole. There were this trick there fresh ellesting in this thirty-three fresh elkskins in this

camp.

Johnnie Carnes, a squaw man, and the oldest settler in Jackson Hole, has come over into Idaho and says every settler in Jackson will be butchered. There were 300 Banneck warriors on Hoback River when Carnes was there, and he says all the squaws have been sent away, and that the bucks are daily joining the main band. Jackson Hole settlers are now entrenched and awalting the attack. Unless cayalry gets there quick every settler between Jackson's Hole and this rallway station is in danger of massacre.

BROUGHT HOME THEIR DEAD.

POCATELLO (Idaho,) July 22.-From esent indications the conflict between the settlers in the Jackson-Hole coun try in Northeastern Idaho and North-western Wyoming and the Indians is not ended. Today the wanderers ar-rived on the reservation, but are far from a reservation, but are far from a peaceful frame of mind, for in the wagon they brought the bodies of four dead bucks. It has been given out all along that only one Indian was

One of the bucks said that they w only coming to the reservation to get more ammunition and were going back to kill the white men. Agent Teter will request the Seventh Infantry from Fort Russell at Cheyenne or the Eighth Cavalry from Boise to be at once sent to this point, unless the Indians return quietly to their homes. J. C. Houtz, a ranchman of Soda Springs, says that the police told him that the Indians, killed a white man, wife and child, and that the settlers rallied and killed six Indians. coming to the reservation to get

NOTHING SENSATIONAL.

DENVER (Colo.,) July 22.-A special to the News from Pocatello, Idaho, say that there is no truth in the sensational that there is no truth in the sensational reports sent out from here regarding the Indian outbreak. No demonstrations have been made by the Indians such as always take place when hostilities are commenced. There is no excitement in Pocatello and no further trouble is anticipated.

Indian Agent Teter is at the scene of trouble with his police to recall the Bannocks, which will surely be done. A report reached this city today that the three Indians who were killed at Jackson Hole a few days ago were

Jackson Hole a few days ago were brought back as far as Gray's Lake and buried there. BANNOCK BUCKS AT HAM'S FORK

DENVER, July 22.—A special to the Times from Cheyenne, Wyo, says that Gov. Richards has received advices to day that some fifty young Bannock bucks are in the vicinity of Ham's Fork station on the Oregon Short Line in Mintah county. The Indians have a big horse herd with them, and are inducing the Utes to visit them, ostensi bly to trade horses. There are no squaws with the band and it is believed the real object is to have a sun dance if the Utes join them. Their movement will be closely watched and they will will be closely watched and they will not be permitted to commit any depre-

WORK FOR THE MILITIA. can be sent against the Indians, and to prepare them to move when ordered.

NO INFORMATION.

OMAHA (Neb.) July 22.—Gen. Coppinger, commanding the Department of the Platte, has no information from Washington concerning the safety of the Princeton geological party supposed to be in the vicinity of the Indiantmount les in Wyoming. He has wired for information, but has heard anothing Old frontiersmen and government officials who are familiar with the situation ridicule the idea of the students being in danger.

ANXIETY AT PRINCETON. NEW YORK, July 22.—Great anxiety manifested at Princeton among the

NEW YORK, July 22.—Great anxiety is manifested at Princeton among the few students yet at the college and the townspeople who are friends of the members of the party since the news came that the Princeton geological expedition was reported captured by the Bannock Indians in Wyoming. At the residence of Prof. Hatchers, who is at the head of the expedition, Mrs. Hatchers, had heard nothing from her husband in several days and this fact tended to confirm the report of his capture by the Indians.

Prof. Scott, the head professor of the department of geology, is out of town for a few days and nothing of the supposed capture had reached his residence. The expedition is similar to those sent out from Princeton in former years, having for its object the collection of geological fossils in which the Northwest abounds. With this scentific purpose of the expedition is combined one of pleasure. The opportunity to combine a summer's outing with the interests of the class-room has induced many students to join the expedition and this year a dozen of them accompanied Prof. Hatchers to the Bad Lands.

The party left Princeton on June 20

nine and aptain. Pease is in his cl in dwas a member of glee club is junior year. Bert Mibank is president of the university football association. Alfred P. Denais managing editer of the Nassau Lary Magazine and a member of the editorial staff of the Princetonian. John Garrett comes from a wealthy Baltimore family. Several letters have been received from the party and everything has indicated a successful scientific exhamily. has indicated a successful scientific expedition. No infimation of trouble at the hands of the Indians has heretofore reached Princeton. The friends of the party are waiting with considerable uneasiness for further news of the expeditions.

A REASSURING TELEGRAM A REASSURING TELEGRAM.

NEW YORK, July 22.—The report that a party of Princeton students engaged in geological explorations in Wyoming had been captured by Bannock Indians caused much comment and apprehension among the friends of the students in this city. Robert F. Little, whose son, Robert F. Little, Jr., is with the expedition, immediately sent the following telegram: "Commandant, Fort Washakle, Wyo.: Telegraph immediately if any truth in the rumor that Princeton boys were captured by the Indians." (Signed.) R. F. Little.

Little received the following reply today: "No truth in the report. Nothing known here." (Signed.) "P. W. Kramer, commandant." The last place the party was heard from was Crow Creek, on the Big Wind River, forty-two miles from Fort Washakle.

GOV. RICHARDS NOT ALARMED.

GOV. RICHARDS NOT ALARMED. CHEYENNE, July 22.—Gov. Richards CHEYENNE, July 22.—Gov. Richards is certain that no harm has befallen the students from Princeton University. The fight between the settlers and the Bannock Indians occurred on July 4 in the Jackson-Hole region, directly south of Yellowstone National Park. On July 5 the Princeton students were at Landar, over one hundred miles from the scene of the trouble. The expedition proceeded slowly up Big Wind River toward-the northwest in search of spectoward the northwest in search of spec-imens and to examine the geological formations west of Fort Washakle. LETTER FROM ONE OF THE PARTY.

WASHINGTON, July 22.—R. B. Plerce, father of S. E. Pierce, one of the party of Princeton students said the party of Princeton students said to have been captured by the Bannock Indians in Idaho, this morning received a letter from his son dated July 16, with a postscript added July 15. The postscript was written at the mouth of Perry Creek, sixty miles from Jackson's Hole, where the trouble is said to have occurred. Young Pierce stated that the harty was about to start for the Yellow-

occurred. Young Pierce stated that the party was about to start for the Yellow-stone, through the Union pass.

Gov. Hichards's dispatch to the Secretary of the Interior last week fixed the date of the fight as July 18. As the retary of the Interior last week fixed the date of the fight as July 13. As the students could not have reached the locality before the 18th, Pierce enter-fains little anxiety in regard to them. Prof. Hatcher is said to be experienced in Indian ways, and Pierce has full in Indian ways, and Pierce has confidence in his ability to handle

party sarely.

In the letter to Pierce, his son says that three members of the party were to leave them immediately for New York in order to sail for Europe. The letter named L. F. Pease of Germantown, Pa., and John W. Garrett of Baltimore, as two of the three, the third name not being given. the letter to Pierce, his son says

ANOTHER LETTER. NEW YORK, July 22.—A. J. Milbank, whose son is one of the Princeton ge-ologists reported captured by the Inthat he had telegraphed to Fort Washakle for information, but the telegram had not been delivered, as the party were supposed to be on their return to that place or else on their way to Yel-lowstone Park and could not be

reached.

Milbank had received a letter from his son dated July 8. It was the plan of the party to go from Fort Washakie direct to the Wind River and follow it up to its junction with the Horse Creek. up to its junction with the Horse Creek where, after spending a week at a ranch, they were to divide, part of the company going to the National Park and Garrett and Pease to return to the fort, where they were due today. Their return before the rest is necessary as they intend to leave this city for Europe on July 31. No information concerning the New York members of the party had been received at their homes up to a late hour last night.

NEVER TOUCHED IT. DENVER (Colo.,) July 22.—A special to the News from Cheyenne, Wyo., says that there is little uneasiness there over the safety of the Princeton College ge-ological expedition. It is now almost certain that the route taken by the party going north brought them no nearer than from 85 to 100 miles of the scene of the reported Indian teach THE WAR DEPARTMENT ACTS.

WASHINGTON, July 22.—Several tel-Times from Laramie, Wyo., says that Col. Foote of the Wyoming National Guard, has orderer Fred Hesse, Jr., captain of Co. A of Laramie, to assemble his company to determine how many on University and the friends and relon a geological tour in the Wind River country, Wyoming, and who express great anxiety as to their welfare. Acting Agent Vincent this afternoon telegraphed Gen. Coppinger, command-ing the United States army forces, in

ing the United States army forces in that section, asking him for information on this point. It is not believed at the War Department that the students are in trouble with the Indians, but it is likely that the telegram will cause Gen. Coppinger to send out a squad to discover the whereabouts of the party.

THE DOUBTS SETTLED.

PHILADELPHIA, July 22.-The aprehensions for the safety of the Prince ton students in Wyoming were dis-pelled tonight when the parents of L. F. Pease received a postal card as fol-

F. Pease received a postal card as follows:
"DUBOIS (Wyo.,) July 14.—Am going through to Yellowstone Park, where we arrive Friday, and crossing the park John Otheman and I return to Chicago via the Northern Pacific from Cinnabar, Mont. We will arrive home about the same time as formerly expected. Don't worry about the Bannock Indian troubles. They are seventy-five miles from here, but we are daily leaving them far behind. Good-by till Friday."

AN AMBITIOUS CHINESE.

Charley Fong Sing Aspires to be

American Cop.
(REGULAR ASSOCIATED PRESS REPORT.) NEW YORK, July 22.—Charley Fon for appointment as patrolman to do special duty in tracking Chinese crim-inals. He has had training for the work in San Francisch, where he cleared up many opium joints and

ambling dens. Charley was 13 years old when he Charley was 13 years old when he shipped with Lleut. de Long on the exploring ship Jeanette. He was one of the party from the Jeanette that was rescued by the Russian expedition. He received a medal from the Secretary of the Navy in recognition of his bravery. After his return from the Greeley expedition Charley came here and married an American girl, who converted him to Christianity. She is now living in Astoria, Or., where Charley owns a hotel.

PORTLAND (Or.,) July 22.—Burglars broke into the store of Hope Bros. at Vale, Or., last Friday morning and blew open the safe. They secured \$700 in gold and \$500 in currency. The officers captured one of the two suspected parties at Old's Ferry oh Snake River, but the other escaped in the darkness.

IAIR-WEATHER BOAT

HE DEFENDER AGAIN DEFEATS

When the Booms Are Hauled Abour the New Yacht Shoots Ahead Without Difficulty.

Laura M. Wins a Deciding Heat-The Santa Rosa Wheelmen to Build a Race-track.

(REGULAR ASSOCIATED PRESS REPORT.) REGULAR ASSOCIATED PRESS REPORTS
NEW YORK, July 22.—The second
trial that the Defender had in New
York waters against the Vigilant today only furnished more evidence that
the new boat is better than the old one in light weather. They salled over a triangular course outside Sandy Hook, and were tested in pretty nearly every kind of sailing. They started out be-fore the wind. Before they had gotten half way on the journey of the first

fore the wind. Before they had gotten half way on the journey of the first leg of ten miles, they were sailing with the wind over the quarter; before they got to the end of the first leg they were even more closely hauled; on the second leg they were reaching free and tackling, and, on the final angle they were able to head the home mark with a fairly well-filled sheet.

The race left no doubt as to the respective qualities of the boats in the kind of weather that prevailed, but that weather was of the lightest character. At no time did the breeze blow harder man twelve knots an hour, and it fell at times to four knots. On the run-out before the wind at the start, the Vigilant not only held her own for a period, but at the end of four miles was well abeam of the Defender. This run was made with a spinnaker set and drawing, under which conditions it is generally conceded that the Vigilant is the fastest boat in the world. She showed those same qualities here as on the other side of the Atlantic.

When it came to the point, however, where, because of a little shift in the wind, spinnakers had to be hauled in and booms hauled on board, the Defender instantly shot ahead, She kept ahead, and was never afterward overhauled during the entire thirty miles, unless it might have been on certain little portions of the course where the wind dropped to almost nothing. In these places it seemed as though the Vigilant picked up, but the gale was inconsiderable.

these places it seemed as though the Vigilant picked up, but the gale was inconsiderable.

The run between the marks shows that the Defender gained in each of the three angles. It was expected that the Vigilant would show up with new salis this morning, but it turned out that she only had to make a few alterations in the canvas that, she used on Saturday. One improvement there certainly was in her outfit, the cleaning of the centerboard. A diver was sent down to examine, the centerboard yesterday while the boat lay inside of the Sandy Hook horseshoe. He found it covered with barnacles and grass. The board had not been touched for polishing purposes when the Vigilant was docked at the Erie basin for the cleaning of her hull, because there was no small one. It, together with the change in the cut of her salls, made the boat do better without doubt than she did on Saturday. Yet the only time she gained on the Defender was when she had that same old champion centerboard hauled up and it was of no use whatever. The Defender appeared in just about the same form as she showed in the first race. Trifling improvements had been made in her block work and a small cut of her club topsail.

If there was any improvement in

of her club topsail.

If there was any improvement in form it was in the Vigilant, and that makes the Defender's performance more remarkable. Directly after the start the racers found themselves running dead before the wind. Down went the Vigilant's spinnaker boom at the first sign of a dead-astern wind, and it was not a minute later that the Defender followed suit. The Vigilant met with a mishap at the start, a small sloop getting in her way. She was on the starof her club topsail. ting in her way. She was on the star-board tack when the Defender was still on the port. The Defender came around just before the line was reached, but refused to give way to the other boat, because she was on the starboard tack, and had the right-of-way. It looked as though there would be a collision, but the other boat by courtesy waived her right and went about on the port tack, passing in under the Defender's lee quarter until she was clear. The Vigilant af once raised a flag of protest. ilant af once raised a flag of protest, but no notice was taken of it at the time by the committee.

The yachts went over the line with jib-topsails flying, and continued so up to the time that the spinnakers were set.

After the spinnakers were hauled in the Defender was the first to go ahead Within the space of a mile the spin nakers were hauled down. The Defender was a good sixteenth of a mile ahead er was a good sixteenth of a mile ahead. Rounding the first mark, despite the fact that the Defender has some little further distance to go, she perseptily gained on the Vigilant, making a very pretty turn twenty feet from the buoy, and went away on the starboard tack with sails quite full in true-racing style. She was very quick in coming into the wind, and as the main sheet was hauled aft she held her head up and went very quickly through the water, closehauled, making the course southeast in a wind that had died down to about six miles an hour.

The Vigilant did not go so close the buoy, but she went around it just as fast. Jib-topsalls were run up at the beginning of the second leg, and as the wind freshened a little bit the contestwind freshened a little bit the contest-ants presented a pretty picture. At 2:20 o'clock the Defender found she could not weather the second mark, so: she went about to port, and as there-was a bit of breeze aft, she showed how she could spin around from one tack to the other.

The Defender stood for three minutes

The Defender stood for three minutes when she came around to starboard, while the Vigilant salied on to her old starboard tack: At 2:44 o'clock the Defender tacked to port, the Vigilant still holding on. At 2:54 o'clock Vigilant went around to port, showing herwelf to be from seven to ten seconds slower in tacking. The Defender came along in fine style, and passed the last buoy at 2 h. 59 m. 11 s. The Vigilant did not get around the buoy until 2 h. 57 m. 25 s. They came home without a tack, a point or point and a half from the wind. On this stretch the Defender only gained, and the finish took place among the great blowing of whistles and the firing of cannon and the tooting of horns from the very small collection of steam yachts and excursionn-boats that were gathered about the line. The official time was: The Defender, 4 h. 19 m. 30 s.; Vigilant, 4 h. 28 m. 47 s.

Thus the Defender wins by 9 m. 17 s.

GRAND CIRCUIT RACES.

The Driver of Annie Wilkes Takes Tumble-The Results.

GREGULAR ASSOCIATED PRESS REPORT.)
DETROIT (Mich...) July 22.—The Grand Circuit meeting today opened at Grosse Point, with an attendance of between 4000 and 5000, a fair track and a rather poor card. The two-year-old pace was given to Ananias, who won in a jog in slow time. The 2:27 trot

was an improvement over the preceding events, and required five heats to decide it, although the finishes, with one exception, were not close enough to evoke much enthusiasm.

In the first heat Annie Wilkes's sulky was smashed at the start in a collision, and Philo Sweet, her driver, thrown to the ground. He clung to the lines, however, and, after being dragged around in a circle two or three times, succeeded in mastering the mare. She was allowed to start in the second heat, as the accident was unavoidable.

Two-year-old pace, purse \$2500: Ananias wan, Patsy Brooks second, others disfanced; best time 2:18%.

The 2:20 class, pacing, purse \$2000: George St. Clair won, Abelo second, Gilman third; best time 2:104.

The 2:27 class, purse \$2000, trotting: Sacaza won, Volunteer Medium second, Contention third; best time 2:18%.

DUNBAR (Pa.,) July 23,—The heav lest rainstorms and floods that have vis DUNBAR (Pa.) July 23.—The heavisets rainstorms and floods that have visited this section for many, years occurred here last night. Rain fell in torrents for over two hours. Trains from Pittsburgh and the Southwest Pennsylvania Railroad and the Burlington and Ohio have not yet passed this point. The bridges between Dunbar and Uniontown are all washed away and the tracks are washed out in many places also. The local streams are swollen higher than at any time since the flood of 1888.

People along the banks of Dunbar Creek were compelled to flee for their lives and buildings were carried away in the torrent. The bridges crossing the creek which runs through the town are all swept away. The Dunbar Furnace Company and the Dunbar Firebrick Company, plants are all flooded. The loss will aggregate many thousands of dollars.

The loss will aggregate many thousands of dollars.

Samuel Washabaugh, a pumper at the Cambria Iron Company's works was drowned. The pumphouse was undermined and carried away.

CINCINNATI, July 22.—Reports from different parts of Ohio and Kentucky report severe storms last night. Near Zanesville, Mrs. Wilson and George Desolm, in a camp-meeting, were killed. At Howard's Mill, near Mount Sterling, Ky.. Green Garrett was struck by a cloudburst while riding along the highway. He and his horse were killed. Near Franklin, Ind., the Shiloh church was wrecked. Near Salem, O. Elisha Brigham was killed and Charles Blythé and J. Wishart were badly injured by their horses being struck by lightning.

MYSTERIOUSLY SHOT.

Lincoln, Ill., Farmer Assassinated on His Own Porch. (REGULAR ASSOCIATED PRESS REPORT.) LINCOLN (Ill.,) July 22.-Louis Mc-Afee, one of the leading farmers of his county, was mysteriously murdered at his own home on Sunday morning. McAfee was much esteemed by the people of Zion neighborhood, where he lived, and the fact that this where he lived, and the fact that this is the third murder attributed to tramps which has been committed near Lincoln within the last few weeks, has tended to bring the excitement to a fever-heat, and should the fiend be caught by the farmers there is no doubt that he would be lynched.

that he would be lynched.

As MeAfee was standing on the porch
he was struck under the shoulderblade he was struck under the shoulderblade by a ball, which passed through the left lung and ledged in the right. The report of the gun was heard by his wife and son, who at once rushed to the house, where they found McAfee dying. He lived but ten minutes. The person who fired the shot was not seen by the family, but his footprints were found and followed to the city. He was barefooted at first, but had stopped to put on his shoes as he entered a corn field on the way.

The murderer is supposed to be a tramp who was fed by the McAfees. What his motive was is unknown, as McAfee was not known to have an enemy. Rewards are offered by the Sheriff, and he has asked for bloodhounds to trace the murderer.

to trace the murderer.

TRIPLE SMASHUP.

ple Are Fatally Hurt. (REGULAR ASSOCIATED PRESS REPORT.) (REGULAR ASSOCIATED PRESS REPORT.)
DECATUR (Ind.) July 22.—Last
night William and Thomas Esley started in separate buggies with their wives
to see their dying sister. Mrs. Mary Esley. On the road a young man and
lady, who were out riding, attempted to
pass by the Esleys. The horse of William Esley, who came in the rear, ran
away and in almost a second the three
rigs were crossed together. The following will die:
MRS. WILLIAM ESLEY.
WILLIAM ESLEY.
MRS. THOMAS ESLEY.
MISS MYERS.

CHICAGO, July 22—Dr. John Alexander Dowle, the Chicago divine healer, who is becoming-well known as a frequent prisoner in police courts, was taken from his pulpit by a police officer yesterday. Quite a scene was enacted. When Dowle was told that an officer was waiting outside for him, he said to his congregation: "I am informed that there is an officer here for me. If he wants me let him take me from this place, the tabernacle of the Most High. I will not go into a corner to be arrested to come and take me where I stand."

There was an immediate cry of "Outrage" from the congregation, but the officer waiked up the alisle of the churen and took his man. Dowle is arrested on the old charge of running a hospital without a license. Miled His Mother.

DELAVAN (Wis.,) July 22.—Mrs.
Mary A. Chappel, a widow, aged 62,
was killed last night by her son Charles.
Mrs. Chappel imagined that she heard
burglars at the window and told her
son. Thinking that his mother had gone
back to her room he shot twice at the
moving figure, which proved to be his
mother. The jury returned a verdict of
accidental shooting.

A Fatal Prizefight

MILWAUKEE, July 22. — A fatal prize fight occurred at a roadhouse near this city last night. The victim was Louis Schmidt, Jr. son of a West Side grocer and died this afternoon. The other principal and spectators fied.

A FLOATING PALACE Secretary Morton Says That Crop STEAM YACHT ELEANOR NOW AT

(REGULAR ASSOCIATED PRESS REPORT.)

NEW YORK, July 22.—J. Sterling Morton, Secretary of Agriculture, was at the Imperial Hotel last night. When asked about his trip to New York he asked about his trip to New York he said: "I am just over here on business of a private nature. I have nothing of interest to say to the press."

Morion, in reply to a question as to the outlook for crops this year, said that from reports he had received, they would be unusually heavy. He said that from south and west, the most favorable reports were coming in and that he did not expect there would be many districts where prosperity and plenty would reign. sel of the Kind of the United States.

Friends Are on Their Way Around the World.

The Craft is Thoroughly American-Left Honolulu the Day After Jo-seph Cook Made His Bad Break-Going to Alaska.

(BY TELEGRAPH TO THE TIMES.) SAN FRANCISCO, July 22.—(Special Dispatch.) The steam yacht Eleanor, with a single exception the finest ves-sel of her sort owned in the United States, glided into port tonight. The yacht is owned by W. A. Slater of Nor-wich, Ct., son of the philanthropist who gave the negroes of the South \$1,000,000 to found the Slater fund. The yacht cost \$320,000, and is a floating palace. Only one American yacht cost more money, and that is the Valiant, owned

by Vanderbilt.

The interesting thing about the Eleanor is the fact that she is really and truly American. When Slater con-templated building the yacht, he sent Capt. Scott, now master of the vessel, to England and Scotland to see the

great shipbuildefs. On Scott's return Slater asked: "Do

On Scott's return Slater asked: "Do you think it will be possible to get such a yacht built in America?"

"It is possible," answered the captain, "but it will cost lots more money."

"Never mind the money," remarked the millionaire, "I want an American yacht if I can get one,"

So the steam yacht Eleanor, really an occan steamship of 11% tone displace. ocean steamship of 1136 tons displace-ment, was built at Bath, Me., by the

Bath Iron Works. Two anchors and one compass were imported. Every-thing else is American through and through even the captain and crew. Slater and a party of friends have been making an eastward trip around the world. They left Honolula the day after Joseph Cook made his bad break and was sat upon by Minister Willis. The yacht in three days will sail for Alaska. The vessel is of steel with water-tight compartments. The decorations are magnificent: The owner's stateroom is fitted with furniture of carved mahogany. The main saloon is finished in paneled mahogany and has \$60,000 worth of paintings hung about it. The house on the main deck is of steel, finished in paneled mahogany. The dining-room is finished in mahoga any and has an open fireplace. There are planos, cabinets, baths and lux-urious divans and other articles of furniture. The yacht is lighted by elec-tricity and has an ice-machine and a distiller. There are forty-nine people

been in a storm since she started on her maiden voyage last October.

ANOTHER DEFECTION.

hicago's New Daily Abandons the United Press Service. (REGULAR ASSOCIATED PRESS REPORT.)

CHICAGO, July 22; Chicago's new Democratic daily, the Chronicler after an eight-weeks' trial of the United Press news report, today abandoned that organization and entered into a ninety-year contract with the Associated Press. This defection leaves the United Fress without a single client among the morning papers of Chicago and throws now feared that thousands of acres of wheat are utterly ruined.

At Larimore, N. D., there was quite a scare when it became known that the wheat in this country was damaged by smut. The discovery was made by the Elk Valley Farming Company, which has the largest acreage of any one farm in the country.

At St. Thomas the greatest excitement prevails because of the discovery of smut in the wheat crop. Several parties who were out all day examining the wheat condition in that vicinity go so far as to say that what wheat they have examined contained 50 per cent of smut. Heavy rains have been falling for the last forty-eight hours at St. Vincent, Minn. and there are no prospects for its stopping. All grain is flat on the ground; and in most cases will never rise, owing to the rank, heavy it back for its Chicago news upon the it back for its Chicago news upon the meager and uncertain resources of two minor evening papers that now constitute its sole representation among the newspapers of the metropolis of the Northwest. In an extended announcement of its admission to the Associated Press, the Chronicle will say tomorrow.

Press, the Chronicle will say tomorrow:

"The Associated Press is the most efficient, the best-managed and the strongest organization of newspapers in the world, its service comprehends the entire earth. Its aims are legitimate and its methods are business-like and substantial. In the controversy now existing between the Associated Press and the United Press, the Chronicle is confident that it consults its best interests by accepting the invitation of the for-mer to take the place which of right be-longs to it, and which, it may say with-out boasting, it has fairly earned by the side of the other great newspapers of Chicago."

JOINED THE STRIKE.

lock Laborers and Brakemen on the Panama Road Out.

REGULAR ASSOCIATED PRESS REPORT.)
NEW YORK; July 22.—A special to NEW YORK, July 22.—A special to the World from Colon says word comes from Panama that the dock laborers and brakemen on the Panama Raifroad there have joined the strike. The railroad officials did not expect this. Attairs are becoming more and more complicated. The railroad clerks are holding secret meetings. The Colon brakemen have petitioned for more pay, but are still working. It is reported that the government is ready to adopt conbrickyard foreman, who Immediately afterward blew out his brains and fell dead upon the body of his victim.

The shooting resulted from a quarrel over a few dollars, which Mrs. Bogdoge's husband owed Calinonea. The latter called at the woman's house today and asked af she could pay him. She answered that she could not get the money at once and Calinonea, drawing a revolver and pushing the children aside, cried dramatically: "Then you will have to die." A son sprang to the aid of his mother, but before he could reach her the intruder sent two shockinto her body and, placing the muzzle of his weapon between his teeth, drove a bullet through his head.

men have petitioned for more pay, but are still working. It is reported that the government is ready to adopt conciliatory measures.

Outen of the Danish West Indies, who resides at Galum, has been telegraphed for by Prefect Guzman to act is mediator, as he stands well with both the labor authorities and with the government. The council was appealed to to secure the release of Fraser, the West Indian shopkeeper arrested on a charge of inciting the West Indian contingent of the Panama Railway hands to strike, Fraser is a British subject, and the government released him.

The Barcelona Steamship Company's laborers discharged the cargo of the Spanish steamer Panama on a promise of increased wages from the ship's captain, having refused to allow his crew to do the work. The Panama is bound to Port Limon.

COLON, July 22.—The strike of wharf and ship-laborers here is extending to the colored mechanics and to the laborers at Panama. Considerable anxiety prevalls here as the situation is critical.

Jumped Through the Window.

SAN FRANCISCO, July 22.—Thomas Hanley, a victim of the opium habit, who attempted to murder his mother and brother last Friday, created a scene in the Police Court today. While his preliminary examination was going on the prisoner suddenly jumped out of the dock and jumped through an open window. As Hanley was going out a policeman caught him and placed him in the dock again. The preliminary examination was at once postponed for a week and meantime Hanley will prohably be examined as to his sanity.

ESTEE PARK (Colo.) July 22.—Lord Dunraven, who will arrive in New York next month, is expected, after the international yacht race for the America's challenge cup, for which he will put in competition his new hoat Yalkyrie III, to visit his estate here in company with English and Eastern friends. HE PETITIONS FOR A CHANGE

A Long-winded Affidavit as to Why Fair Trial.

Great Crowds Surround the Jail and Courtroom Hoping to See the Prisoner.

An Irrigation Dam Broken-Stabbing at Sacramento-Charges Against the Berkeley University-A Bicyclist is Thrashed.

REGULAR ASSOCIATED PRESS REPORT.)
SAN FRANCISCO, July 22.—Hundreds of people surrounded the County Jail this morning eager to see William Henry Theodore Durrant taken to the new City Hall to be atried for the murder of Blanche Lamont and Minnie Williams in Emanuel Church on April 1. It was supposed that Durrant would be kept in jail until near the time for commencing the triai. The waiting (REGULAR ASSOCIATED PRESS REPORTA) commencing the trial. The waiting crowds were disappointed. At 8:45 o'clock Sheriff Wheelan sent his private o clock Sheriff Wheelan sent his private buggy to the County Jail. Durrant and Chief Jailer Sattler entered this open buggy and started alone for the City Hall. No one saw them start except

Durrant was not handcuffed, and the pair attracted no attention as they drove quietly through the streets. The early hour disappointed the watchers at both ends of the journey. After Durrant had passed into the courtroom, where he was taken for safety, crowds began to gather at the jail, and all the streets in the vicinity were black with people until long after the hour of opening the court.

People early filled the corridors leading to the courtroom of Superior Judge Murphy, before whom Durrant is to be tried. A squad of deputy sheriffs and detectives kept the crowd on the move. Until the regular hour for opening court deputies guarded both doors of the courtroom and admitted none but

court deputies guarded both doors of the courtroom and admitted none but jurors, attorneys and newspaper-men. These occupied all the seats in the room and all the chairs being taken, Judge Murphy peremptorily ordered that none others be admitted.

Durrant's father, who greatly resembles his son, was early at court to meet his son. The two sat in quiet conversation as the room gradually filled up. When Durrant was first arrested his mustache hid his mouth, and his long hair gave him the appearance of a student. Now his closely-cropped hair gives him a criminal appearance, and his clean-shaven lips reveal the coarse sensuality of his mouth. Three months' confinement in jail have made his naturally coloriess complexion even more pallid and pasty. He is fatter than when arrested, and his eyes were very bright as he restlessly glanced around the room. It is only by an effort that Durrant seems able to fix his attention on one subject, but he frequently forces

on one subject, but he frequently forces himself to concentrate his eyes and mind.

The defendant was represented by Attorneys Duprey, Dickinson and Thompson. Dist.-Aity, Barnes personally appeared for the prosecution, accompanied by Assistant District Attorney Peixotto. Capitain of Detectives Lees and all detectives under him were in or about the courtroom.

When Judge Murphy said: "Case of W. H. T. Durrant, murder," Barnes said: "Ready for the people." Attorney Dickinson, for the defendant, then formally moved for a change of venue, stating that if it should appear that it would be impossible to secure an unbiased jury, or should such a state of feeling be developed as would render a fair trial impossible, he would reserve the right to renew the motion which he asked the Judge now to pass upon. In support of the motion Dickinson said that he would submit the affidavits of the defendant, Charles J. Garner and B. J. Perkins.

Judge Murphy insisted that the affidavits should be read, although the counsel said the read Durrant's affidavit which stated that, owing to publications in the local press, the mind of the public was inflamed against the defendant, and the press and the people were violently prejudiced against him, so that he believed that he could not have a fair trial. In support of this statement Duprey began to read.

ple were violently prejudiced against him, so that he believed that he could not have a fair trial. In support of this statement Duprey began to read, as part of the affidavit, excerpts from a part of the affidavit, excerpts from the three morning and three evening particles. The crevasse is about thirty

of the Howard-street Methodist church said:
"The dramatization of the horrible murders at the Emanuel Baptist Church should be condemned. Theaters and theater-managers who would put such a play on the boards would nore to corrupt the youth of the city than all the hell-holes of iniquity that flourish so abundantly in San Francisio. Such plays would tend to cultivate a morbid spirit and lead the young men and women on the way to destruction."

SAN FRANCISCO, July 22.—The Congregational ministers of the city are much agitated for fear the publication of the proceedings of the Durrant trial will tend to demoralize the community. The subject was discussed at the meeting today, and it is proposed to ask the

ing today, and it is proposed to ask the daily papers to treat the case in a very conservative manner.

Rev. J. H. Powell said: "The publication of all the details of the Durrant trial will be of the greatest injury to the public. The papers have a wide influence, and should be conservators of public morals, but they are not. Some of our papers are wicked. They pander to the worst element and to the most deprayed sentiment of the community."

The Utten at Angels' Camp on Fire—
Narrow Escapes.

ANGELS' CAMP, July 22.—When the 7 o'clock shift went down in the Utica mine last night fire was discovered in the slope near the 800-foot level, 300 feet north of the Stickle shaft. As there are three shafts, the men were gotten safely out, although some were in an exhausted condition. In a few minutes the mine was filled with smoke and gas. An ineffectual attempt was made to smother the fire with steam, and flooding had to be resorted to. There are 1300 inches of water now flowing into the mine and it will require 18,000-000 gallons to reach the fire, providing it has not spread much. This will require probably ninety hours, and it

will take at least three weeks to pump it out. The loss may reach \$250,000. The Utica is one of the largest ore-producers in the United States. Over seven hundred men are employed and at least five hundred are temporarily out of work. Seven men-came near being left in the mine after the others escaped. Superintendent Tom Lane thought of them and, taking a man with him, descended and bulkheaded the burning stope as quickly and well as possible. Then he descended farther and guided the men out. Their candles had been extinguished and they had to grope their way. When they reached the top they were in a fainting condition. The men would have perished in less than five minute more.

In attempting to put the bulkhead in less that in the North Lities shaft.

men would have perished in less than five minute more.

In attempting to put the bulkhead in last night in the North Utica shaft, about fiteen feet from the surface, more than one hundred men were overcome by gas. It was thought that two of them would die, but now all are out of danger. The escaping gas is so strong that many families in the neighborhood have had to move to other quarters. It is impossible to tell whether the fire is spreading to any great extent. The Utica is owned by Alvinza Hayward, C. D. Lane and the Hobart estate. It is said to be yielding more than \$500,000 per month.

A PERNICIOUS EXAMPLE.

Charges That Berkeley University is Ruining Its Students.

REGULAR ASSOCIATED PRESS REPORT.)
BERKELEY, July 22.—Charges are being made against the University of California by some of Berkeley's citizens. They say that it is teaching the young to smoke. Ever since its foundation there have been those who have argued that the university ruined its students spiritually, but never before has there been any complaint about their physical welfare. The trouble has come about by the extensive tobacco plantation which the institution supports near the entrance to the grounds, where there are sixty or seventy rows of healthy-looking tobacco plants, comprising the twenty or thirty varieties of the weed.

Its location is very prominent, being adjacent to one of the principal entrances. The tobacco is not distributed to the students, but the great cry being raised is that it sets a bad example for them.

Dr. Bentley of the Methodist Church thinks that the land could be put to much better use as a cornfield or potatomatch. "I decidely object to the united." (REGULAR ASSOCIATED PRESS REPORT.)

View of His Mother's Death. (REGULAR ASSOCIATED PRESS REPORT.) SAN DIEGO, July 22.-The funeral

of Mrs. Louise Shaeffer, who was burned to death Friday night at La, Presa, was held today. The belief that the unfortunate woman was murdered and her dwelling fired to conceal the crime is gaining ground. Her son, Charles Shaeffer, who is postmaster at Otay, says that she had in her house between \$300 and \$400, and that no trace of this has been found, though melted coin valued at about \$75 was discovered. He thinks that the robber was in the house when Mrs. Shaeffer returned from Mrs. Costello's, and that she was struck down; that the robber found some money, and did not pause to scarch for more, but, removing the top from the lamp, poured coal eil over her body, and set it on fire, and then escaped through a window.

This theory is supported by the fact that the remains were almost consumed. The arms, head and legs were burned away, and the trunk itself burned to a crisp. The light framework building would hardly have caused sufficient heat to accomplish this without an additional infiammable material, like oil. No arrests have yet been made, and so far as known no one is suspected. of Mrs. Louise Shaeffer, who was burned to death Friday night at La

AN IRRIGATION DAM BREAKS.

A Lake Breaks Loose in the Vicinit

(REGULAR ASSOCIATED PRESS REPORT.) STOCKTON, July 22.-The bulkhead water of the lake, which had been im pounded by the dam and was being used for irrigation purposes along throughout the northeastern portion

this statement Duprey began to read, as part of the affidavit, excepts from three morning and three evening papers, published in San Francisco, including practically everything that had been written about Durrant and the murder.

The reading of Durrant's affidavit occupied the court until noon. Adjournment was taken until 2 o'clock. Thereafter the reading of the affidavit with newspaper clippings occupied the court whout interruption the balance of the afternoon.

CLERGY FIGHTING THE PLAY.

SAN FRANCISCO, July 22.—Local clergymen are making a vigorous protest against the production of "The Durrant Case," a play based on the Emanuel-church murders, which was recently written. In preaching on the subject last evening Rev. W. W. Case of the Howard-street Methodist church should be condemned. Theaters and theater-managers who would put such a play on the boards would do more to corrupt the youth of the city than all the hell-holes of injusity than all the

One Man Killed and One Seriously

BAKER CITY (Or.,) July 22.—James Circey shot and instantly killed a man named Brown and seriously wounded Joseph Meyertholten yesterday at the White mine, twelve miles from this city. Circey escaped to the mountains. The shooting is the result of a dispute over a mine. About six years ago S. J. Fore shot and killed Henry Dell over this same claim.

A Bicyclist Thrashed.

SACRAMENTO, July 22.—Tonight at Third at J streets a careless bicycle rider ran against Mrs. John Hogan, wife of a restaurant-keeper, and knocked her down, inflicting painful but not serious injuries. The woman's husband gave the wheelman a thrashing, and then permitted him to ride away without learning his name.

FLASHES FROM THE WIRES.

At Glenwood, Wis., 500 employees of the Glenwood Manufacturing Company plant struck yesterday for an increase of wages and regular pay.

Four hundred men employed at the Lake Shore Foundry at Cleveland struck yesterday for a restoration of the wages paid before the reduction of two years ago.

Giganette Calineonea shot and badly injured Mrs. Rossaelia Bigdoge yesterday at Chicago then killed himself. Trouble over money matters is said to have caused the crime.

A motion has been entered before Judge Mc-Adam of the Superior Court of New York for the appointment of a receiver for the New York Sunday Mercury, a United Press paper.

The strike at Kenosha, Wis., has been settled without the aid of the State Board of Arbitration. The men's demand for a return to the wages which prevailed before the panic has been agreed to by the manufacturers.

Commander E. P. Pendicton has been detached from duty a servettic officer of the technic from duty as a receiving officer of the technic from duty as a receiving officer of the technic from duty as a receiving officer of the servetting officer of the

RAILROAD RECORD. OREGON PACIFIC SALE.

T IS AFFIRMED BY THE STATE SU-PREME COURT.

The Amount Bid for the Property May be Inadequate, but Nobody Bid Higher and Nothing Was Left to Do but Sell.

(REGULAR ASSOCIATED PRESS REPORT.) (BEGULAR ASSOCIATED FRESS REPUBLISHED SALEM (Or.,) July 22.—The Supreme Court today affirmed the decision of the lower court in the case of the Farmers' Loan and Trust Company of New York as trustees, against the Oregon Pacific Railway Company. The Oregon Pacific road, 140 miles in length, together with all the rolling stock, franchises, etc., was sold at public auction to A. B. Hammond of Missoula, Mont., for \$100,-000 to satisfy the claims of creditors, amounted to many times this

the bid.

The court says: "The most important contention is that the property and franchises offered for sale were of the value of \$3,000,000; the rails, rolling stock and miscellaneous property alone, not including the land or buildings, were worth \$450,000 and the bid of \$100,000 is so grossly inadequate as to shock the conscience and raise the inference of unfairness, fraud, mistake or surprise."

equacy sufficient to set aside the sale must be so gross as to shock the con-science. The opinion continues: "We have examined the transcript before us in vain to find any evidence of

were any condiscution for the continue of the

lity Water Company Will be Force Report in the Howard Bribery Case-The Council.

The usual large grist of business oc-upled the attention of the Council yes-erday. The report of the special committee in the Howard bribery case was mittee in the Howard bribery case was received and filed. Decisive action was taken in the matter of repairing the five hydrants of the city, the City Water Company being instructed to perform the work.

At the Courthouse yesterday the trial of Wong Wing for the murder of Lou Suey commenced, being the second of the Chinese murder trials.

An important victory on the question of Police Court jurisdiction was scored.

of Police Court jurisdiction was scored by Deputy District Attorney James, and another decision on jurisdiction was given by Judge Van Dyke.

> AT THE CITY HALL. CITY COUNCIL

Final Report in the Howard Bribery

The City Council met in regular ses-

sion yesterday, all the members of that body being present. President Teed called the attention of the Council to the school site, at Eighteenth and Union avenue, re-cently accepted by the Council, declaring that the location of the site was an unfortunate one, as there is already a large school building at Hill and Six-teenth streets, and at Georgia Bell and Seventeenth streets. Furthermore it was stated that, whereas there had been but \$1000 allowed for the purchase of a site in this neighborhood, the lot selected and accepted is to cost \$3500. Councilman Kingery defended the action of the Council in accepting the site, but, upon the motion of President Teed, who had descended to the floor, the matter was referred to the special committee of the Council, which is superintending the work on the new school buildings. At the request of Councilman Blanchard, the site selected in the Ninth Ward, at Second and State streets, was also referred to Seventeenth streets. Furthermore it

lected in the Ninth Ward, at Second and State streets, was also referred to the committee for reconsideration.

The report of Superintendent of Bulldings Strange, was received, stating that the floor plans for all of the new school bulldings are completed, and that it will now be in order for the Council to advertise for bids for heating these buildings. The report was referred to the special committee having the matter in charge. The committee will meet this morning to consider the question.

question.

The report of the committee which investigated the matter of purchasing land for a driveway in Echo Park, recommending that the land necessary to be used for the purpose, be condemned, was adopted. The report of the City Clerk was received and adopted.

HOWARD BRIBERY CASE.

The special committee which, during the past ten days has been attempting an investigation of the alleged crook-edness in the office of Street Superin-tendent Howard, presented their re-port to the Council, which read as fol-

which in so serious a matter is a result to be deplored and avoided if possible.

"In adition to the obstructions to a full investigation the Street Superintendent appeared before us at the last meeting and demanded that specific charges be made against him before proceeding further, in order that he might prepare a defense and produce witnesses to support his defense.

"Your committee was unable to make charges, as none have been filed with the City Clerk, and no evidence has been developed on which to base charges, other than produced before the former committee which investigated the charges made by Mr. Kingery of attempt to bribe him.

"The Street Superintendent refused to submit himself to further examination until specific charges are filed. In view of these facts your committee would recommend that specific charges against the Street Superintendent be filed with us at once if posible.

"That the parties filing these charges furnish us with the names of any and all witnesses whose testimony will tend to support the same.

"That a copy of these charges be furnished the Street Superintendent.

"Your committee has no desire to shrink from any duty devolving on them in this investigation, and in the filing of the charges will push the examination of witnesses as far as in their power. Should any witness refuse to testify, after specific charges are made, your committee will report the act to your honorable body, together with their names and the facts proposed to be proven by them."

MOTIONS.

Motions were made as follows by the

OPENING OF BIDS.

Bids for performing work on the new school buildings were opened and read as follows:

Bids on Gates-street school by W. B. Robb, \$6944; San Pedro-street school, \$5870.

AFTERNOON SESSION.

Trouble Reviving for the City Water

When the Council convened in the afternoon, the first business to demand attention was the report of the Fire and Water Committee. The report was of great importance, as it dealt with the question of the repairing of the fire hydrants of the city, concerning

the question of the repairing of the fire hydrants of the city, concerning which there has been so much agitation of late.

The committee met on Saturday and formulated the report, which was printed in the Times of yesterday, recommending that the Council instruct the City Clerk to advertise for bids for the repairing of the fire hydrants. This recommendation, it was stated by members of the committee, was made in accordance with the advice of the City Attorney, who had declared that, inasmuch as the fire dydrants had been used for sprinkling and other purposes not mentioned in the contract, the company could not be held liable for their repairing. The City Attorney now denies having rendered such an opinion, declaring, however, that the water company could not be forced to repair the hydrants, where it could be proven that the same had been used for sprinkling purposes. So the committee which, to use a slangy expression, had been a trifle "previous," gathered itself together and revised the report as follows:

THE REVISED REPORT.

it could not be proved that the defective hydrants had been used for sprinkling purposes.
"But," said Mr. Dunn, "there is something of far greater importance to consider in this discussion than the few paltry dollars involved in the repairs of the hydrants. If we were to sue the company at this time the question would be upon the validity of its contract with the city. Upon this issue the city would stand small show of winning a victory. But in two years there will be a big fight instituted with regard to this contract, between the company and the city, and it is very poor policy to bring a suit against the company at this time upon this same question, when the city stands so little chance to win."

At the conclusion of Mr. Dunn's remarks Councilman Snyder offered the following resolution upon the subject: SNYDER'S SNAPPY RESOLUTION.

SNYDER'S SNAPPY RESOLUTION.

SNYDER'S SNAPPY RESOLUTION.

"Whereas, the provisions of the lease with the city of Los Angeles, under which the City Water Company are granted the privilege of using the water of the Los Angeles River for domestic purposes, provides that the said company shall erect a fire hydrant at street intersections, and shall keep the same in repair at their own cost and expense during the full term of said lease, to wit, until June 20, 1898, and, whereas, the said City Water Company have neglected and still neglect and refuse to repair said fire hydrants, and to keep the same in proper condition.

"Now therefore, be it resolved that the City Clerk be instructed to forthwith notify the said water company to [Continued on sixth page.]

BUSINESS.

FINANCIAL AND COMMERCIAL

OFFICE OF THE TIMES, Los Angeles, July 22, 1895.
BANK CLEARANCES. The bank clearances for today, as reported to The Times by the Los Angeles Clearing-house, are: Exchanges, \$177,806.65; balances, \$18,054.48.

COMMERCIAL.

IRON GOING UP. There has been a considerable rise in the price of Iron products. The price of nalls was by one local dealer yesterday quoted as hav-ing risen \$1 per keg. At the office of ing risen \$1 per keg. At the office of the Los Angeles Iron and Steel Company it was stated that the company has raised the price about \$5 per ton on its products, which include sheet iron, sheet steel and corrugated iron. The increase is attributed to a greater demand for various kinds of iron, brought about by increased building operations along the several lines. It is also given as a reason for the present situation that there was no possible likelihood of the tariff going any lower than it was now, and that any changes made must necessarily be in the way of better protection to native iron industries.

setter protection to native iron industries.

A NEW FUEL. A company has been incorporated in San Francisco to manufacture a new kind of fuel, to be composed of peat and asphaltum. The San Francisco Chronicle, referring to it, says: "Tests that have" been made indicate the entire success of the scheme, and inasmuch as there are thousands of acres of peat land along the Sacramento and San Joaquin rivers, and inexhaustible quantities of asphaltum in various southern counties, there will be no danger of the supply running short."

It is stated that the outside cost to the consumer will not exceed \$2.50 a ton for this new fuel.

If this new fuel should prove to be the success that is claimed for it, then it can be said that Southern California will be "strictly in it." In Orange county alone there is an almost inexhaustible supply of peat land, while asphaltum in equal quantities is being produced in every county of Southern California. Whether it be crude petroleum for fuel or this new fuel of peat and asphaltum, there is no section of the country that can begin to compete with Southern California in the matter of cheap fuel.

FRUIT FOR GERMANY. An effort

matter of cheap fuel.

FRUIT FOR GERMANY. An effort is going to be made to establish a trade for California dried fruits in Germany. Mr. Zimmerman of Placer county, who lately returned from that country, and who visited, while there, many of the interior cities and towns with a view of seeing whether there was an opening for California dried fruits, says he is satisfied that dried apricots, peaches, pears, nectarines and apples could be profitably sold. Nothing could be done with prunes, as they can be furnished from France and Hungary cheaper than they could be from California. Mr. Zimmerman says he is going to make the experiment, and to that end his partner, Mr. Luehning, will leave for Germany next month to place on sale the goods consigned to him by the firm.

In this connection it may be noted that a warning was recently circulated in Germany against the American dried apples on sale there. It was stated that traces of zinc were found on the fruit. It was thought that this was due to the zinc netting on which the apples were dried. The probabilities are the apples were Eastern-dried ones. Wire or zinc netting is not used in California. All fruit is dried on wooden trays, which do not corrode, and which can be cleansed by being hosed down with water.

SILK PRODUCTS. The Chicago Dry Goods Reporter is authority for the statement that a large silk house of that city is going to send machinery of the latest American improvement to Tokio, Japan, where it will make its own silk. This is but one of many industries in which capital will soon seek investment, with mutual profit to Japan and the American investor. With its large industrious population, and the progressive ideas of its people, Japan should soon become one of the most important commerical relations of the United States.

GENERAL BUSINESS TOPICS.

MORE BEET-SUGAR FACTORIES. The large-consumption of white granu-rated sugar in the United States is acting as an incentive for the in-vestment of foreign capital. France said to be the pioneers of beet-sugar manufacture, and of the two countries said to be the pioneers of beet-sugar manufacture, and of the two countries Germany is today by far the larger manufacturer of that article. It is not surprising, therefore, to learn that German capital is seeking investment in that line in the United States. The Groeers Criterion, a trade paper of New York, publishes the following: "German capitalists have decided to engage in the manufacture of beet sugar in this country on an extensive scale. The Kentucky Beet-Sugar Company is now being organized in Bowling Green, with a capital of \$2,000,000, which will build a plant to cost \$750,000, and to produce fifty tons of granulated sugar every twenty-four hours."

There is only one thing in this paragraph that is not clear. The capital is reported at \$2,000,000, and the expected output is placed at fifty tons a day of twenty-four hours. This proposed new company will have to do better than that if it wants to compete with the California beet-sugar product. The Chino manufactory has nothing like \$2,000,000 yet invested, but it is furning out over seventy tons of finished white granulated sugar of the highest quality daily.

THE CHANGE APPROVED. A dis-

THE CHANGE APPROVED. A dispatch to The Times today from Washington states that the Comptroller of the Currency has approved the change of title of the Southern California National Bank of Los Angeles to that of the Merchants' National Bank of Los Angeles.

INSOLVENT DEBTORS. The Lake View Land Company of Los Angeles, with headquarters at Pasadena, filed a petition in insolvency today with liabil-itles stated at \$200,000. Full details will be found in another column.

LOCAL PRODUCE MARKET.

Wholesale Quotations Revised Daily. LOS ANGELES, July 22, 1895. Fancy Coast butter is firmer, ranging from 7,2640c, and 28-oz. squares bringing as high Fancy Coast butter is firmer, ranging arom 37½@40c, and 28-oz. squares bringing as high as 35 with some dealers. Eastern eggs are in supply and are quotable at 18c. New white onlons are lower. Fresh meats are unchanged. (The following quotations are for average grades of the products mentioned. For an extra choice article a somewhat befter price than the highest quoted can usually be obtained, while for a product of decidedly inferior quality the seller will probably have to accept less than the lowest published quotable.

Shares and Money.

(REGULAR ASSOCIATED PRESS REPORT.)
NEW YORK, July 22.—A strong tone characterized the trading on the Stock Exchange and, with occasional reactions, led to the taking of profits. The Granger shares led the market, both in activity and bouyancy. Remarket, both in activity and bouyancy. Reports of a heavy crop came in from all sections of the corn belt, and the advices regarding wheat were more favorable, both of which circumstances induced the bear traders to close out their contracts, and the result is a material gain in the stocks of the grain-carrying roads. Nearly the entire railroad list shared in the advance. Sugar was again bought by a bull clique, and a rumor on the board had it that a leading member of the trust had cabled orders to buy the stock, which moved up 1% per cent. all but % per

board had it that a leading member of the trust had cabled orders to buy the stock, which moved up 1% per cent. all but % per cent. of which was retained. Reading was unfavorably affected by a report that there was trouble in the reorganization camp between the New York and Philadelphia interests. The market closed strong and buoyant. Bonds were gluil, but strong. The total sales were \$908,000.

Loudon Financial Market.

NEW YORK, July 22.—The Evening Pest's London cablegram says: "The stock markets were quiet today. Consols and investments and foreign stocks were dull on the Maredonian incidents. American securities were quiet all day and strong at the closs. Gold. shipments from America are generally feared. shipments from America are generally reared, but not by the best-informed people. For instance, the belief is general that all the new bonds will return to the Americans next month, when they become negotiable. But I have the best reason for believing about a quarter will go. The Lehigh bonds were largely applied for today and are quoted at about 1½ per cent premium. The prospect of a strong government induces sanguine views of the future trade, and here and there they are checked only by the uncertain dutlook of foreign politics.

Train-News Notes.

SANTA MONICA. A. B. Hanson Killed by a Santa Fo

SANTA MONICA, July 22.—(Regular dorrespondence.) The evidences of a fatal accident on the Santa Fe track, about a mile below Ocean Park, were discovered this morning shortly after 6 o'clock, and further search disclosed the fragments of a human body scat-tered along for a considerable distance. The man, for such it proved to be, was literally ground to pieces. Such of the itterally ground to pieces. Such of the narts as could be, were collected, and an inquest held upon them. It developed that Andrew B. Hanson of Hyde-Park, had been run down by the last train cityward Sunday evening. The victim was a man but little more than 20 years old, and a Swede, unmarried, in his vest pocket was found a small plece of iron, into which human hair had been fairly forced and imbedded. This was a memento the man carried of an accident, which had nearly cost him his life two years ago, when he was working on the Los Angeles Outfall and a boiler exploded at Inglewood. The piece of iron, hot from the boiler, made a wound in the man's head which every one then thought would be fatal, but he recovered, though his hearling was never as good afterward as before. This slight deafness was doubt-

less the occasion of the fatality last night. The Coroner's jury decided the death was due to accident, and that the trainmn were not at fault. It is further alleged that the man was, prior to the boiler explosion, quite seriously injured by an accident in a brick-yard, where he was working.

It may be stated for the benefit of nervous people and others, who feared the result of decay, that the body of the whale was promptly removed from the North Beach at dark last evening, and the places that have known it hereabouts will know it no more. The remnants of the monster are to be dissected at some convenient place, and as much of him as is good for the ways of commerce will be preserved therefor. His discoverers are already in the market with large quantities of whalebone in its original shape, which some people are purchasing as souvenirs, and others doubtless for utilitarian purposes. One thing is certain, dead as the whale might have been, whether for days or months prior to his advent here, he answered the purposes for which he was towed to this shore. He attracted a large crowd, and, with the usual exceptions, it is fair to presume that his visitors were pleased to have seen his dimensions, irrespective of the exact date of his lamented demise. And so farewell to the whale.

date of his lamented demise. And so farewell to the whale.

W. M. White's son Horace, a child of 6 years, died on Sunday at the family residence here, and was today burled at Rosedale Cemetery, Los Angeles. He has been ill for some time.

W. D. Curtis and wife of The Palms are the happy possessors of a young son, born to them on Saturday evening. The Mermaid saloon, operated on Railroad avenue by A. N. Bruhn, was closed today on numerous attachments served by local and Los Angeles creditors.

A QUARRELSOME BOARD.

THE EDUCATORS WHO CALL EACH OTHER WICKED NAMES.

Stormy Session of the Board of Eduention Last Evening-Bickering Over Triffing and Unimportant Matters-New Teachers Elected

Those people who had fondly fancied that the differences between the two factions in the Board of Education were in the way of being forgotten or pleasantly disposed of, would have been dis-abused of the delusion by attending the meeting of the Board of Education held last evening. At the first opportunity which presented itself for a division of opinion, the two factions promptly locked horns and proceeded to accuse each other of a great many unbecoming and ungentlemanly qualities, such as mendacity, deceitfulness, cowardice, selfishness and others too numerous to

mention.

The report of the Finance Comittee was the occasion of the first lot of dis-putatious remarks. "I object," said Director Garland, the chairman of the Director Garland, the chairman of the Stationery Committee, "to the purchasing of supplies by the chairman of the Printing Committee, Mr., Grubb, when such purchases should properly be made by me. I resign my position on the committee. I don't care to act simply as a figurehead."

"Me too," sung out Director Fulton. "I'm on that committee, and I want to offer my resignation right here."

Then there arose a disgraceful squabble over the payment of Prof. Foshay's salary as superintendent, and, after the

salary as superintendent, and, after the

ble over the payment of Prof. Foshay's salary as superintendent, and, after the unseemly spectacle had been carried on for some time, Prof. Foshay ended it by declaring himself willing to accept the salary of deputy superintendent for the disputed time.

The City Attorney sent to the board the following communication:

"Replying to your request of July 10 as to what will be done with any surplus that may remain after the purposes for which the school bonds were voted have been accomplished.

Sec. 6 of the statute authorizing the issuance of these bonds and providing for the expenditure of the proceeds of their sale provides that the money received from the sale of these bonds shall be applied exclusively to the purposes and objects mentioned in the ordinance until such objects are fully accomplished, after which, if any surplus remains, such surplus shall be transferred to the general funds of such surplus remains, such surplus shall be transferred to the general funds of such

municipality.

"The general fund of this city is what is designated as the cash fund, and any surplus remaining after the erection of the schoolhouses provided in the ordinance authorizing the issuance of the bonds, must be paid into this fund. The Council might, however subsequently. Council might, however, subsequently transfer the money to the school fund should they in their discretion see fit to do so."

The communication was received and filed.

A communication was received and filed.

A communication was received from the Associated Alumni of the High School, asking permission to hold the regular monthly meetings of the association in the High School building the second Tuesday of each month until March. The request was granted upon the condition that the principal of the High School be held responsible for the proper care to be taken of the building during the meetings.

Under the head of new business, Director Pitman moved that the board proceed to ratify the action of the meeting at which the resignation of Prof. Search was accepted, as he was not succeed to the these dead meetings as the taken of the search was accepted, as he was not succeed to the search was accepted.

rector Pitman moved that the board proceed to ratify the action of the meeting at which the resignation of Prof. Search was accepted, as he was not sure that the said meeting had been legally called. This motion opened up the old sore afresh, and for fifteen minutes the air was blue with objurgatory epithets which were bandied between the "solid six" and the equally solid three. The venerable Mr. Grubb was informed by Dr. Wills that he was a llar of the first magnitude when he asserted that Prof. Search was illegally elected, and spoke of him as having invited the board to meet him at his hotel for consultation upon his arrival.

A three-part novelette might be written describing the animated conversation indulged in by these gentlemen and their colleagues, but the veil of silence will be drawn over the remainder of the interesting but not valuable discussion.

The Teachers' Committee reported as follows, recommending that the following-named be elected teachers in the Los Angeles city schools for the present school year ending June 30, 1896, subject to the same conditions as those elected July 8, 1895. Regular teachers: Cora Getchell, Mark Keppel, Lizzie Keller, Frances Brotherton, Susanna Corey, Antonia A. Schwanneke, M. Allice Blackinton, Helen M. Demens, Estelle B. Smith. Substitute teachers: Alba St. A. Bennett, Evalina Summers, Lizzie M. Donahey, Ada Frazer, Helen P. Vineyard. Lizzie Field, Belle Sigerfoos, Lillian E. Purdy, Margaret James, Carrie Etchmunday, Cora M. Netdig, Ida E. Carrick, C. J. Fox, Helen Dillon, Melvania Jones, C. S. Thompson, George H. Prince, F. A. Bouelle, Mrs. F. C. Ingersoll, Clara Young, Katherlne C. Wambold.

Director Garland raised the question of the election of A. Blum to the position of French instructor in the High school, vice Miss Whitney, deposed. The matter was referred to the Teachers' Committee for reconsideration.

Prof. Foshay asked for and was allowed a vacation of four weeks beginning dugust 5.

lowed a vacation of four weeks begin ning August 5. He will visit Eastern schools during his vacation.

PROF. G. W. SHAW, of the Oregon Agricultural College, reports: "Dr. Price's Baking Powder is highest in leavening power and free

DEATH OF DR. DEN.

BAKER BLOCK.

Died All Alone-Thus the Nester of the Medical Fraternity in Los Angeles County Passed Away-A Sketch of His Life.

fir Richard S. Den, the Nestor of the medical fraternity in Los Angeles, was found dead in bed in his rooms in the Baker Block about 5 o'clock yesterday

by any of his friends or other tenants of the block since about 6 o'clock Sat-urday evening. The supposition was that he had gone out of town for a few days, probably to the seashore. Daily papers lying at his door showed that he had not left his apartment since Sunday morning. Noting his unac-counted-for absence, the janitor of the building yesterday grew suspicious and looked in the rear windows. He did not notice anything unusual, however, and therefore dropped the investiga-

and therefore dropped the investigation.

About 5 o'clock a boy delivering papers scented an awful stench exuding
from the door. He notified the janitor,
and the latter, also observing the
stench, notified the police. Officer Richardson, who was detailed to investigate, entered the rooms through a
window and found the old man dead
upon his couch. Everything in the
room was in order, howing that he had
retired in his usual manner and passed
away sleeping. way sleeping.
When the doors and windows of the

when the doors and windows of the room were opened the stench that came out was sickening, the aged physician evidently having been dead since some time Saturday night, for decomposi-tion had already set in. He lay on his right side, and there was no indication of any structure.

tion had already set in. He lay on his right side, and there was no indication of any struggle.

Coroner Campbell was notified and sent the body to Robert Garrett's undertaking rooms in the adjoining building. During the evening Drs. Campbell and Bryant held an autopsy, and found that death was caused by fatty degeneration of the heart. An inquest will be held at 11 o'clock today.

Dr. Den was one of the picturesque figures of Los Angeles. His courtly personage was a familiar sight to all old residents, and he was a typical Irish gentleman of the old school. Loved and respected he was by all who knew him. He was especially popular among the Spanish population, many of whom would have no other physician so long as he was practicing. He retired from active practice a few years ago on account of the infirmatives of age, but some of his old patients still insisted on having his servives.

As though anticloating death, he had

tives of age, but some of his old patients still insisted on having his servives.

As though anticipating death, he had just completed for himself a handsome vault and monument in the Roman Catholic Cemetery on Buena Vista street, costing \$5000 or \$6000. He was a devout Catholic, and performed many charitable acts. For years he gave his services free to the children in the Sisters' orphan school.

Dr. Den never was married, but he has relatives at Santa Barbara, who have been notified of his death, and will be here to attend the funeral. He occupied the suite of rooms in the Baker Block in which he died ever since the building was completed.

His estate is valued at \$75,000 to \$100,000. Not long ago he sold one piece of property for \$50,000. In all probability he left a will, making his Santa Barbara nephews and nieces his principal beneficiaries.

In compliance with a request telegraphed by John S. Bell, at Los Alamos to United States Marshal Covarrublas, a requiem high mass will be celebrated at the Cathedral Wednesday morning at 10 o'clock, to which all friends of the late Dr. Den are invited.

BIOGRAPHICAL SKETCH.

BIOGRAPHICAL SKETCH. Dr. Richard S. Den was born in Garandara, County Kilkenny, Ireland, in 1821, his family dating their ancestry randara, county kinkenny, Ireland, in 1821, his family dating their ancestry back to the time of King Henry II., 1171. After a preliminary education in Dublin he entered the City Infirmary and Leper Hospital of Waterford, remaining there for six years during the summer sessions. In December, 1839, having completed the regular courses of instruction and practice of midwifery in Dublin, R. S. Den passed his examination and aftenward received his first qualifications as obstetrician; and in Aprill, 1840, at a public examination of the students of the first class, held at the original School of Anatomy, Medicine and Surgery in Dublin, the first certificate was awarded him in the three branches of his profession. Continuing to pursue his studies and having attained his majority, he, in August, 1842, received his final qualifications. The same month he was appointed surgeon on a large ship howeld for More The same month he was appointed surgeon on a large ship, bound for Mazatlan. From that place he sailed for Santa Barbara to visit his brother, in-

geon on a large snip, bound for Mazatlan. From that place he sailed for
Santa Barbara to visit his brother, intending to remain only a short time,
but, for months, no vessel touching
these, then almost unknown shores, he
was prevailed upon by the residents to
remain with them.

During the winter of 1843-44, while visiting Los Angeles, whither he had
been called to perform some difficult
operations, a petition signed by all the
leading people, native and foreign, was
presented to him, inviting him to remain among them and practice his profession. In the latter part of July, 1844,
he took up his residence in Los Angeles and remained until the breaking out
of the gold excitement. In 1846-47,
during the Mexican war, he acted as
chief physician and surgeon of the Mexican forces located in Southern California. Throughout those stirring times
Dr. Den assiduously and untiringly
ministered to the wants of suffering humanify, irrespective of nationality, and
he was loved and respected by all.

In 1848 Dr. Den organized at his own
expense a prospecting party and started
north for Sullivan's Diggings, near
what is now Angels' Camp, in Calaveras county. The next year the doctor,
perceiving that his professional services were needed on account of the
prevalence of fever in that district, discharged his men and entered into the

where he was one of the seven original
response of the Society of California
Pioneers.

In 1854 he went again to Santa Barbara county, where he was engaged

where he was one organizers of the Society of California Pioneers.

In 1854 he went again to Santa Barbara county, where he was engaged some twelve years in looking after the interests of his San Marcos Rancho of eight leagues, which was stocked with cattle. About the year 1859 he made a conditional sale of this ranch and stock, intending to visit his old home and purchase a place which his ancestors had held for over 450 years before the confiscation; but the sale fell through, and later, during the great drought in California, he lost almost all his stock, over 2000-head of horned cattle, so that he was forced to indefinitely postpone the trip.

postpone the trip.
In January, 1866, he moved to Los Angeles, where he has ever since lived, practicing his profession, until within the past few years, when he retired from active practice.

FOURTEENTH YEAR.

which 12 per cent. amounts to \$150,

How many workmen were receiving

\$100 per week before the recent ad-

vances? Does anybody suppose for a

moment that all of the 250,000 whose wages the World claims have been ad-

vanced were receiving that amount? The

question furnishes its own negative

answer. No such wages were paid. No

such average advance of wages has been

made. No such number of workmen have

had their wages advanced. Wages, on an

average, and in most individual cases,

are lower now than they were when the present administration came into

power. The recent increases are less

in most cases than the reductions

which came close upon the advent of the free-trade party to power.

It is very gratifying to know that

wages in any case have been restored

even in part, to the McKinley scale.

But our free-trade friends, in their ex

cess of exuberant joy, should confine

themselves to the truth, or at least

JUDGE ROSS'S DECISION.

It is needless to say that the de

cision of Judge Ross, adverse to the

Wright irrigation district law, is of the

very highest interest and importance

to the people of California and to

bondholders outside the State. The

decision is printed in full elsewhere

in The Times this morning. Though

somewhat lengthy, it is, nevertheless

succinct and carefully considered

ummation of the law and of the rea

sons which impelled Judge Ross to de

clare it invalid. There is necessarily

so much ground to be covered in a de cision of such far-reaching importance

that the document, though filling sev-

eral columns, does not contain a super

The effects of this decision cannot

at present writing be fully estimated

It will injuriously affect very wide and valuable interests. If the irrigation

district law be in violation of both the

that of California, it follows that the

bonds issued and sold under it are

likewise invalid. This is a matter th

importance of which cannot be over

estimated. It will not only affect dis

strously the interests immediately at

fected, but it will prove a serious blow to Southern California credit. Bond

which may be issued hereafter, fo

any purpose whatsoever, will be looked

upon with great suspicion, as the law

inder which they may be issued wil

be likely to be declared invalid. Judge

Ross's decision affects bonds to the

value, probably, of \$30,000,000 to \$40,

000,000. Some of these bonds are hel in Europe and many of them are held

in the East. Naturally, the decisio

has created a profound sensation here

and will create even a greater sense

tion in the East and abroad when its

THE NICARAGUA CANAL.

Mr. A. R. Colquhoun, a well-known English explorer, who has recently examined the Nicaragua Canal route, peaks of the project in the following plimentary terms:

"The canal, from an engineering point of view, is a very fine one. The climate of Nicaragua is immensely superior to that of Panama. Although working during the very hottest season of the year, I found the climate quite pleasant. From what I have seen of Nicaragua was ant. ragua after a lengthened visit to the United States, especially the Southern United States, especially the Southern States, I am more than ever convinced of the immense importance to the United States of this project. The canal, in my opinion, will be universally of greater importance than the Snez Canal, and will largely revolutionize the shipping routes of the world. For the United States the canal will have the effect of developing the trade of the Pacific slope and the Southern States."

upon by the Fifty-fourth Congress should be the Nicaragua Canal. It is a matter of the highest importance The Republican Congress could per form no more popular act, perhaps than to pass a bill similar to the one which failed at the last session. It is to be hoped that there will be enough patriotism, enough progressive Amer canism, in the next Congress to carry through a measure of the kind sug

The great importance of this work to California has often been referred to these columns. But it is important alone to the Pacific Coast, nor yet to the Southern States. It will benefit whole United States, by cheapentranscontintenal freight rates. It will bring the Atlantic and Pacific seathus greatly reduce the time, by water. between those seaboards. It will also nearer to those of Japan, China, Australia and India, as well as to the western ports of Central America and scope and meaning are realized. exico. The benefits are so obviou that it is unnecessary to refer to them

It is estimated upon very good au thority that the tonnage which would annually pass through the Nicaragua Canal would be much greater than that ssing through the Suez Canal. The atter has proven to be a very profitble investment, paying large dividends upon the capital stock. There is wery reason to suppose, therefore, that canal will more than pay expense from the time it is opened for traffic. he project has been talked of for a t many years. Talk is cheap, but t doesn't build canals. The time for action is near at hand.

RECENT WAGE ADVANCES.

The New York World recently delared that the wages of 250,000 workcreated 12 per cent, under the Gornd refused to sign, declaring it to be "tariff of perfidy and dishonor." The orld further claimed that this al-red increase of 12 per cent. in the ages of 250,000 workmen meant "the nt of \$150,000,000 more wages. e absurdity of this claim is exposed the New York Dry Good Economist following effective manner:

"Without considering other than filled workingmen at an average cekly wage of \$25 for fifty weeks, al-wing two weeks for vacation, what

Two hundred and fifty thousand orkingmen, averaging \$25 per week, mals \$1250 per man, or a labor cost of fifty weeks of \$312,500,000, on hich 12 per cent. amounts to \$37,500,-

That number of workmen must we been receiving a much larger sekly stipend than \$25 each:
Two hundred and fifty thousand orkmen, averaging \$50 per week, male \$2500 per man, or a labor cost of fifty weeks of \$625,000,000, on hich 12 per cent, amounts to \$75,000,

and where, consequently, everything is not so immaculate at all times as might be desired. In the mean time about this matter. California is quite able to take care of itself as well as of the stray Oregonians who come within its borders to better their condition. and generally succeed-when they don't

nents have recently been tried in the application of electricity to growing crops. It is claimed that the germinaion of beans, peas and grain has been quickened by the electric current to a narked extent. The apparatus used consists of a pole from forty to fifty feet high, on the top of which is an usulated row of copper spikes to colect electricity from the air. The electric force is transmitted by an insulated wire to a network of galvanzed-iron wires buried in the ground about four feet, under the growing crop. The apparatus is called a geoase increases the yield of crops 50 per

There is a distinct possibility that the overweening zeal of Mayor Strong and Police Commissioner Roosevelt, in enforcing the Sunday law in New York city, may result in restoring Tammany o power. If Tammany once more gets into the saddle it will be ant to fix itself there so firmly as to defy all efforts to dislodge it for many years to come. The return of Tammany to power would be the greatest calamity that could happen to New York, in a

"An Austrian, on his way to Japan," pleasure he derived from the picnic held in Sycamore Grove last Sunday by the pleasure, he writes, was all the more enhanced by the eloquent oration of Mr. le Mesnager, and which was devoted to the occasion which had called them together, the celebration of the anniversary of the fall of the Bastille. The writer pays a warm tribute to Mr le Mesnager's speech, characterizing it as one of the most eloquent he ever

The Assistant State Treasurer Illinois predicts that there will be a def-icit in the treasury before the taxes begin coming in early next year. The preceding (Democratic) Legislature made heavy appropriations and an insufficient tax levy. It beats all what an affinity treasury deficits and Democratic administrations have for each

AT THE PLAYHOUSES.

ORPHEUM.-The bright and enter taining bill at the Orpheum drew a big house last night, and will probably serve to produce like results every evening during the week. The show as a whole is one of the best ones seen at this house for some time, and the in-novation in this respect was highly ap-

opened by the wonderful collie; Miss Scottie, in a succession of marvelous feats that baffle the understanding considering the fact they are accomplished by a dumb brute. The little canine selects a card from ten in numconsidering the fact they are accomplished by a dumb brute. The little canine selects a card from ten in number by the scent of the person who takes it from the pack, picks out a succession of numbers in the order in which they are placed upon a blackboard, and does other tricks that are truly astonishing. Gilbert and Goldie, the merry comedians, were given a warm reception, and kept the house in a roar with their songs and witticisms. The Millar brothers' Diorama is a most entertaining feature of the bill. Brilliant views are given of streets in London, some comic sketches, fine naval scenes, and some strikingly-realistic pictures of sea fights, shipwreeks, etc. together with a transformation scene that is captivating. The De Forests, a male and female duet, present their novel and lively whirlwind dance, and it served to earn the heartlest applause and numerous recalls. The tough dance, which concludes the turn, is capital, the young woman who assumes the role of the feminine Tar Flatter, even outdoing Ada Lewis in her burlesque of the character. Tillie Morrisey, who has been featured as the big card of the programme, scarcely deserves the prominence given her. She has a fairly sweet voice, but it is not in any way superior to that of the average music-hall singer. Blocksom and Burns are a lively team of acrobatic comedians, and their bits of burlesque are very funny. Of the afterpiece, "Led Astray," it is scarcely sufficient to say more than that it would have been better had it not been led into the bill. It is a most dreary stagger at being funny, and is merely a reminiscense of minstrel sketches long since obsolete in this day of fin de slecleism. The same programme all the week. "According to present arrangements a certain number of American gentlemen, now resident in England, will, in part celebration of Independence day, drive themselves to the Magazine in Hyde Park, in buckboards, buggles and round the park, after the manner of the members of the driving clubs." Only this and nothing more about the celebration of Independence day. The ginning with their earliest use and times. The British are not at all

the week.

BURBANK.—The habitues of the Burbank are getting their fill of gore this week in a very creditable production, both scenically and histrionically, of the lurid melodrama from the French, "The Stranglers of Paris." Carl Berch has a congenial role in that of Jagen the Strangler, playing the part with fine touches of light and shadow. Rose Stillman makes an excellent appearance in the character of the strangler's daughter, playing with a rare appreciation of the exigencies of the role. Georgie Woodthorpe has an agreeable part as Sophie, and the other members of the company play with such zeal and intelligence as to deserve the applause of their audiences. The mechanical and scenic features of the production add greatly to the interest of the performance. The same bill for the remainder of the week.

at once repair each and all fire hydrants and place the same in proper condition for fire purposes on or before the 31st day of July, 1895, and be it further "Resolved, that in the event of a failure of the City Water Company to so repair said hydrants, as herein directed, and within the time herein specified, that the City Attorney be, and he is hereby instructed to institute the necessary action to annul and set aside the said lease, for a failure to comply with the terms and provisions thereof, and be it further "Resolved, that the chief of the fire department be instructed to make an examination of all fire hydrants on the 1st day of August and to furnish the City Attorney with a complete list of all hydrants which he finds out of repair upon said examination, and also to furnish the Council with a list of such hydrants."

The resolution was adopted and referred to the Fire and Water Committee. Councilman Munson then moved that the City Water Company be instructed to immediately repair all defective fire hydrants in the city, which motion was adopted.

CITY ENGINEER'S REPORT. at once repair each and all fire hydrahts

CITY ENGINEER'S REPORT. The report of the City Engineer was received and acted upon as follows:
"In the matter of the petition of Mc-

received and acted upon as follows:

"In the matter of the petition of McLaughlin in reference to the building
projecting out into. Washington street
between Hope and Flower streets. I
find that said building does not project
into the street, but the steps to said
building are out one foot beyond the
property line." Referred to the Board
of Public Works.

"In the matter of the protest from J.
H. Lohman against the establishment
of the grade of Olive street from Pico
to Fourteenth, and the improvement of
the same, I find that said grade has
been finally established and that the
total frontage on the street between the
said points is 1248 feet, a majority, of
which would be 625 feet. The protest
represents a frontage of 400 feet, which
lacks twenty-five feet of being a majority." Received.

"In the matter of the petition from
W. L. Riley and others, asking for the
change of grade on Flower street between Fourth and Sixth and on Fourth
street from Flower to Pearl streets, I
find, upon examination, that the total
frontage which would be affected is
s862.60 feet, a majority of which would
be 1817 feet. The petition, represents a
frontage of 2175.50 feet, which is considerably more than a majority. I therefore herewith present an ordinance of
intention to change and establish the
grade of Flower street from a point 270
feet north of Fourth street from Flower
street; also to change and establish the
grade of Fourth street from Flower

street; also to change and establish the grade of Fourth street from Flower street to Pearl street." Adopted.

"Ordinance of intention to grade, gravel, gutter and construct cement curb and walks on Twelfth street between the east line of Burlington avenue and the west curb line of Burlington avenue." Adopted.

"Ordinance of intention to grade, gravel and gutter, cement curb and cement walk San Pedro street from the north line of Sixteenth street to the north line of Washington street." Adopted.

Ordinance of intention to construct

sewers in Downey avenue, Johnston street, Hancock street, Altura street and George street, known as the Downey-avenue sewer district No. 3." dopted.
"Ordinance of intention to construct

sewers on Main street, Workman street Putnam street and Mission road, known as the Kuhrts-street sewer district."

Pulmam street and Mission road, known as the Kuhrts-street sewer district.'
Adopted.

"It present herewith final or "Fance changing the grade of Arnold street, from Sherman to Wolford, from Coronado to Smith, Smith street from Bluff; Bluff street from Sherman to Coronado, Cliff street from Sherman to Coronado to Chiff stre

ney with the necessary description of property to be taken for the widening of Twentieth street to a sixty-foot street between a point 120 feet east of Garey street (said point being the west line of Biglow tract.) and a point sev-enty feet west of the west line of Ala-meda street

meda street.

"I did not include the points between the west line of the Biglow tract and Santa Fe avenue, as the city already owns an eighty-foot street between those points, and this being the case I presumed that the Council not being cognizant of these facts, instructed me accordingly." Referred to the Board of Public Works.

"Ordinance of intention to change and establish the grade of East Fourth street from Mott street to Soto street.

and establish the grade of East Fourth street from Mott street to Soto street. This was introduced upon the motion of Councilman Blanchard and the petition of J. W. Parkhill et al. I find, upon examination, that said petition represented 1269% feet. The frontage which will be affected by said change is 2275.91 feet, a majority of which would be 1138 feet. Petitioners have, therefore, 131.75 feet over a majority." Adopted.

REPORT OF CITY ATTORNEY. REPORT OF CITY ATTORNEY.

The report of the City Attorney was received and acted upon as follows:
"As directed by you I have prepare

dinances:
"An ordinance authorizing property "An ordinance authorizing propertyowners to improve a portion of Ninth
street under private contraat." Adopted.
"An ordinance ordering the work of
opening and widening Avila street and
appointing commissioners." Adopted;
the commissioners being G. W. Retzer,
J. R. McManus, L. Thorne.
"An ordinance ordering the work of
opening and widening Georgia Bell
street and appointing commissioners.
Adopted; the commissioners being J.
W. Mfers, Tyler, Guthrie.
"An ordinance ordering the work of
opening and extending Clara street and
appointing commissioners.
"An ordinance providing for appoint-

ment of deputies in the Tax Collector's office." Adopted.

"In the matter of the ordinance granting special privilege to F. N. Myers to erect poles and string wires in what is known as the 'oil district,' I know of no legal objection to the passage of the same." Adopted.

"In the matter of the Southern Pacific Railroad's contemplated action of laying a double track on Alhambra avenue: An examination of the ordinances granting a right-of-way to the Southern Pacific Company, approved July 26, 1873, will show that such ordinance was passed in pursuance of an election had in which the question was first submitted to a vote of the people. That ordinance provides, among other things, that all of San Fernando and Mission

use of the Southern Pacific Railroad Company, and the right-of-way over and along the same, subject as afore-said, is hereby granted to said company for the building, maintaining and operating of its railroad thereupon by and through the track or tracks which said company shall deem it necessary to build along and over the same, etc. The Mission street referred to in said ordinance is that portion of Alhambra avenue over which the railroad company is contemplating the laying of a double track." Referred to the Board of Public Works.

lic Works.
"In the matter of your request for an opinion as to whether finy franchise for a street railroad exists on Macy street. I find no street railroad franchise in I find no street railroad franchise in existence covering any portion of said street, unless it be the franchise granted to A. P. Cross and approved November 4, 1891. Sec. 4 of this ordinance requires that work shall be commenced within six months and completed within eighteen months. This provision is in conflict with sec 502 of the Civil Code as it existed at that time. Said section at that time read as follows:

"Sec. 502. Work to construct the

Sec. 502. Work to construct the "Sec. 502. Work to construct the railroad must be commenced within one year from the date of the ordinance granting the right-of-way and the filing of articles of incorporation, and the same must be completed within three years thereafter. A failure to comply with these provisions works a forfeiture of the right-of-way as well as the franchise, unless the uncompleted provisions.

with these provisions works a forfeiture of the right-of-way as well as the franchise, unless the uncompleted portion is abandoned by the corporation with the consent of the authorities granting the right-of-way—such abandonment and consent to be in writing.

"In the case of Omnibus Railway Company vs. Baldwin, 57 Cal., 160, the above section was quoted as being the law upon the subject and that decision has never been reversed. The various ordinances extending the life of this franchise, as well as the one attempting to forfeit it are probably of no effect. Still this is a matter of some doubt and could only be determined by an action in court. Under the principle laid down by our Supreme Court the owner of a street franchise prior to the late Legislature had one year within which to begin work and three years from the time of said beginning in which to complete it. As I am unable to find when work was begun under this franchise, if at all, I am unable to say whether the three years has yet expired. I am therefore of the opinion that the Cross franchise may still have a legal existence, providing the work upon the same was commenced within one year from its granting and less than three years ago." Referred to the Board of Public Works.

"In the matter of the petitition of John"

ago." Referred to the Board of Public Works.

"In the matter of the pelitition of John Flood for a deed to lots 1 and 2 of block B, of the Cherriotto tract, I have examined an abstract of title to said property and am, of the opinion that such deed should issue as prayed for." Referred to the Land Committee.

"In the matter of the suit brought by Maria Valdez Alexander against the city, to quiet title to certain property on San Pedro street, between Second and Third streets, I have examined the title to said property and recommend that a disclaimer be filed in this action, reserving the right-of-way for a zanja which I am informed is now piped across the rear of said property." Referred to the Board of Public Works.

The Council then adjourned to meet tomorrow at 2 p.m.

AT THE COURTHOUSE.

THE COURTS. Judge Van Dyke Decides an Impor

the refusal of a jury trial in these cases amounted simply to an error in ruling, and to no lack of jurisdiction in the Police Court to try the case independently of a jury. The proper remedy for an error is an appeal to the higher court and Mr. James moved that dependently of a jury. The proper rem-edy for an error is an appeal to the higher court, and Mr. James moved that the writ be discharged and the prisoner remanded on the ground that a writ of habeas corpus was an unnecessary and illegal proceeding.

J. Marion Brooks and W. P. Hyatt ar-gued strongly on the other side, but Mr.

rued strongly on the other side, but Mi lames proved the correctness of his cor James proved the correctness of his conclusion by reference to two test cases given in No. 82. California Reports, the habeas corpus case of J. H. Miller and the case of J. A. Powelson vs. Justice W. C. Lockwood, both of which established the jurisdiction of the Police Court in these matters.

Judge Van Dyke expressed himself as being strongly opposed to an innovation which would incorporate in a writ of habeas corpus a matter which properly belongs 40 a simple appeal.

writ of nacess corpus a matter which properly belongs to a simple appeal; and, accordingly, discharged the writ.

This decision settles the fate of all such cases, and thus prevents many of the prisoners now in the City Jali from being released on such a proposition.

Wong Wing, the Chinaman accused in Lou Suey's dying statement of being nim, was brought before Judge Smith yesterday to stand his trial for murder. Nearly all day was occupied with getting together a jury, but at last the trial started, and two witnesses were examined. Police Officer J. W. Blackburn and Dr. E. A. Bryant. Their testimony was substantially the same as that given by them at the trial of Wong Chuey.

Chuey.

The trial will be conducted along the same lines as that of Wong Chuey, Deputy Dist. Atty. C. C. McComas and George A. Phibbs, Esq., appearing for the prosecution, and Henry T. Gage, Esq., and H. H. Appel, Esq., for the decrease.

S. E. Sloan of Pasadena yesterday valked into Sheriff Burr's office and sked to be committed to Highland, as asked to be committed to Highland, as he felt insanity steadily growing upon him, and feared that he might at any time endanger his family by becoming violently insane. As his disease seemed to be chiefly melancholia, the Sheriff decided that the County Hospital was better than Highland, and he will probably be taken there.

Charles T. Connell, formerly City Re-order of Tucson, Ariz., was yesterday brought before Judge Van Dyke for-ommitment to Highland on the charge of acute homicidal mania.

Mr. Connell lost his wife about four-

months ago, and his grief turned his mind. He became a prey to delusions, and soon developed into a dangerous

The sealed verdict brought in by th

Judge Van Dyke yesterday handed down an opinion on the case of Bradley

down an opinion on the case of Bradley vs. the brigantine, J. M. Griffith et al., an action for seaman's wages for services performed on the defendant Brigantine J. M. Griffith, within and without the waters of this State.

The complaint is demurred to on the ground, among others, that the court has no jurisdiction of the person of the defendant or of the subject of the action, for the enforcement of a maritime lien, founded upon a maritime contract, and cognizable only in admiralty. The United States Constitution confers upon the courts of the United States jurisdiction of civil causes of admiralty and maritime jurisdiction and

fers upon the courts of the United States jurisdiction of civil causes of admiralty and maritime jurisdiction and the Judiciary Act of 1789, vests in the United States District Courts exclusive jurisdiction of such causes, saving 'the concurrent remedy at common law in the common law courts. This action, however, is founded upon a maritime contract and is a proceeding in rem, and not an action at common law, and it has been frequently held that in such cases the jurisdiction is exclusive in the District Courts of the United States.

The demurrer, therefore, must be sustained on the ground stated. The amount involved in this case is \$163.73, and the Superior Court has no jurisdiction of an action at common law for recovery of money only in that amount, and, therefore, even if fit were allowable to change entirely the nature of the action from one in rem to an action at common law, such an amendment would be of no use in this case for the reason stated, and leave, therefore, to amend is not granted, and the action will be dismissed.

Ida C. Wiseman has filed an appli-

cation for a divorce from her husband H. M. Wiseman, on the ground of fail re to provide.

Thomas W. Easton et al. has filed

suit against Emeline Childs et al. to quiet title to lands in the O. W. Childs

suit against Emeline Childs et al. to quiet title to lamds in the O. W. Childs tract.

C. A. Mead has filed a suit against Frank Morris, B. F. Groves et al. for an injunction to restrain the defendants from moving a building from a lot on Seventh street, and for \$100\$ damages.

John C. Bewley has begun suit against Gracleuse Etcheverrigarry, Benjamin F. Jeans and Maria H. Slater for judgment against the said Gracleuse Etcheverrigarry, to recover commission for services performed as her attorney, and for interest in certain estates. The other defendants appear only as having some claim upon these estates which plaintiff wishes to quiet.

On June 20, 1892, the said Gracleuse Etcheverrigarry gave to Leon Loeb power of attorney to act in her behalf, promising him, as a commission, ten per cent. of property which she expected to inherit from Miguel Leonis. On July 6, 1891, the estate was distributed, and, in compensation, Loeb was to have had part of the Rancho de las Virgines, and some lots in the Leonis tract, in addition to his 10 per cent.

On August 14, 1894, Gracleuse Etcheverrigarry revoked the power of attorney in question, and has assigned his claim to Bewley, who has brought suit for the promised compensation.

Seymour B. Bisbee has begun suit against John H. F. Peck for payment for the stock, good will and fixtures of his saloon and lunch counter business, sold to Peck in October, 1893, Judgment is prayed for in the sum of \$2800.

Judge Young yesterday on the charge of having unlawfully appropriated to his own use a watch belonging to H. C. Porter, and valued at \$60. He was held to answer on \$1000 ball, and will plead on July 26.

Department Five was sunk into the

innocuous desuctude yesterday on ac-count of the absence of Judge Shaw, who is ill with tonsilitis.

Minnie Harris, was yesterday granted a divorce from her husband, Jerry Har-ris, by Judge York. The ground of com-plaint was desertion.

AT THE U. S. BUILDING.

Hildebrand and the Ormandys Ar

william Hildebrand was arraigned yesterday before Judge Wellborn, and will plead on Monday, July 29.

J. H. Ormondy and his wife, held to answer by Commissioner Van Dyke, were arraigned before Judge Wellborn in the District Court yesterday. Monday, July 29, was the time appointed for them to plead.

MEN AND WOMEN OF THE COAST.

A. G. Wells, general superintendent of the Atlantic and Pacific, has arrived at Santa Barbara from Albuquerque, accompanied by his family, who will spend the summer on the Coast.

Hon. Frank Moody, Superior Court judge of Glenn county, has been visiting Pasadena. Judge Moody is the youngest Superior Court judge in the State.

youngest Superior Court judge in the State.

Col. F. W. Roberts, United States Consul at Nogales, Sonora, with his son, Archie, have gone on a visit to Biddeford, Me., where they will remain until the middle of September.

Col. Grannis, the original owner of Coronado Beach, is now a guest at the Hotel del Coronado.

Dr. Samuel McLean, who died at Modesto least week, came to California in 1850, travelling around the Horn in the old Mary Walker. He was one of the leaders of the Vigilance Committee in Stockton in 1856.

Harry H. Torrey of Oakland, the famous hurdler of the State University team, will Join Prof. Johnson in geological work at San Pedro.

Prof. R. A. F. Penrose, professor of conomic geology in the University of Chicago and a member of the United States Geological Survey, is visiting the mines of Arizons.

SAFE IN FOLSOM.

COUNTERFEITER LANGROUGRET 18 IN STATE'S PRISON.

Was Sent Up from Los Angeles for Five Years for Burglary-Unique Character of the Crime Commit-

Emile Langrougret, the man men-tioned in a San Francisco dispatch as-being wanted in that city for counter-feiting, and who had ordered the trunk containing his counterfeiting outfit sent to No. 148 West Fifth street, Los Angeles, care of Auguste Wagniere, has been in Folsom penitentiary since July, 1894, and was sent there from Los Angeles, for burglary to serve a sen-tence of five years.

The crime for which Langrougret was

convicted, is one of the most unique in criminal annals. He came to Los Angeles in the spring of 1894, and contracted to build a house for Wagniers, who was the manager of the Electric Manufacturing Company, whose place of business was at, No. 148 West Fifth street.

street.
Langrougret built the house, but in stole a wagon with which to hault the nails; from two other places he stole the nails; from two other places he stole tools with which to do the work; and as he had to have clothes to wear while working, he robbed a shoe store and a laundry to get shoes and shirts. In fact, he stole everything used in connection with the building of the house, committing no less than eight burglaries. On trial and conviction he was sent to Folsom for five years, dating from July 27, 1894.

The order for sending his trunk to Los Angeles was given since he went to the penitentiary, probably by a confederate. The local detectives were annoyed by the publication of the finding of the counterfeiting outfit in the trunk, because they were working, in connection with Agent Harris of San Francisco, on a clew for the capture of Langroupert's confederate if he had one.

Wagniere sold out his business at No.

The Coroner will hold an inquest to-day on the body of Mrs. Emma C. Ber-nard, who died at her residence, corner of Central avenue and Washington street, yesterday evening, of epilepsy. Mrs. Bernard was 42 years old, and had been an invalid for a long while. She was subject to epileptic fits, but had no regular medical attendance of late which accounts for the necessity of holding an inquest.

GUINEVERE,

The King and all his knights have passed away!

White witch of winter and white bride May.
Their bones are driven of the wind as dust;
Guineveré alone endures, and ever must
While men learn faith, and women to betray!

Her rose-leaf lips are ever fresh and sweet,
Her ivery body is more white than milk.
Her hair more golden than the sun above;
She leads us sweetly with a thread of silk
We love to feel our necks beneath her feet
For only she has found the Grail of Love.
—(i.ondon World.)

EASTERN MAXIMUM TEMPERATURES.

ALL ALONG THE LINE.

Chino is great. Chino has a surplus of Fourth of July funds over and above having the best and biggest kind of

Colton cannery has put up 500 tons of apricots this season. It will put up a thousand tons of peaches and an equally large quantity of pears.

Cool in summer, warm in winter. Those are the thermometrical condi-tions of Los Angeles and explain why this city is such a favorite resort at all seasons of the year.

The assessment this year of property in Fresno county is reported at \$3,500,-000 less than that of last year, while on the other hand the mortgages on property have increased \$1,000,000. What is the matter with the gem of the valley? Is it playing poverty in order to show later on the value of a San Joaquin Valley Railway?

The citizens of Berkeley have got up on their "righteous ear" and addressed a petition to the regents of the University of California against their propose tobacco plantation. The plaint of the citizens is chaperoned by some of the church ministers of that city, who see in the experiments to be made in to bacco culture the inevitable production of opium—at a later period.

Petrifaction and ossification of many things, including trees, birds, fisher and long-buried men, have occurred for many generations in San Diego county and esswhere, but the latest reports from there include the ossification of the blood-vessels of a live man. This ossification, naturally, resulted in death. To live and continue to keep up with the procession in Southern Cali-fornia in these days of her augmented progress necessitates keeping the blood channels of the human system free from the slightest traces of fossilized

WHAT IT COST.

Expense Report of the Fourth of July Celebration

The Executive Committee of the re-cent Fourth of July celebration has submitted a statement in detail of the

submitted a statement in detail of the expenses incurred in preparing for and carrying into effect the celebration of the national holiday.

Hearty and public thanks are tendered by the committee to those who contributed to the success of the undertaking, either by their participation, their active personal aid, or their pecuniary contributions.

The vouchers and books are in the hands of the secretary, and open to the inspection of anyone desiring to consult them for more complete informa-

sult them for more complete informa-tion regarding the various items.
The following is the summary of the expenses: Advertising, \$278.40; general expenses, \$449; the parade, \$2217; deco-rations, \$627.77; cantata, \$784,32; public meetings, \$40; packing decorations, \$3; The total receipts are \$4614.35, and the balance in the treasury, \$186.60.

Fell into a Trench.

A stable boy, yesterday afternoon, tried to drive a fine black mare and a wagon through the heaps of earth and sewer trenches full of water at the corsewer trenches full of water at the corner of Pico street and Union avenue. Down went the mare into the first trench, sinking until only her nose and hind legs were visible. After sixteen individuals had aired their opinion on the best method of extracting the animal, a live man came along, and, with the aid of the traces, willing hands and a strong young rancher manning the tail, the beast was hauled out, apparently none the worse for her soaking, she belonged to Mr. Yordan, who resides at the corner of Sixteenth and Starr streets.

Sunday-school Picnics.

The Boyle Heights Presbyterian an The Boyle Heights Presbyterian and Methodist Episcopal Sunday-schools will hold a union pienle today at Ocean Park. They will go by the Santa Fe for which trip reduced rates have been offered. They will leave this city at 9 a.m., and returning, leave Ocean Park at 4 p.m. and 5:25 p.m. The Bethlehem Church Sunday-school will pienic tomorrow at Ocean Park and the Swedish Congregational Church Sunday-school will pienic Thursday at the same piace. The Sunday-school of St. Barnabas Church will have a pienic Thursday at Redondo.

Improved Physical Culture C. J. Rohde, principal of physical cul-ture in the city schools, is preparing a new manual of exercises for the coming ew manual of exercises for the coming rear. The new manual contemplates a change which will principally affect the higher grades. It will be understood that the purposes of the physical culture are to supply a suitable reaction from study, to furnish proper exercise and to develop grace in movements. It is stated that the changes in the schedule are made for the purpose of better attaining these objects.

A BAD FAILURE.

THE LAKE VIEW LAND COMPANY BECOMES INSOLVENT

Linbilities Are Away Above the Visible Assets-What the Company's Manager Says for the Comfort of Land-buyers.

A petition for insolvency was yes-terday filed by L. P. Hansen, president of the Lake View Land Company, in behalf of the corporation. The liabili-ties of the company are \$200,000, and the assets, \$50,000, with encumbrances of \$290,000.

£280,000.

E. C. Webster, who is general manager of the company, was seen last evening by a Times reporter, and asked aboot the cause of the failure.

Mr. Webster said "I think it is generally well known that neither myself

erally well known that neither mysein nor the present management had anything to do with the organization of the Lake View Land Company. The company was in operation about one year when the matter was taken up by the when the matter was taken up by the present management, which has spent about \$100,000 in trying to get the matters in such shape that the large and valuable tract of land contracted for by the company might be profitably handled and hundreds of fine homes made at Lake View, in Riverside county; but because of hard times and other complications, the company could go no further, and was forced into insolvency."

cations, the company could go no further, and was forced into insolvency."

"How about the people who have purchased land of the Lake View Land Company?" was asked.

"About that I can only say that they have made their contract with the Lake View Land Company. Most of them have paid something upon their contract, and the matter is in such shape that any one who has made a contract for the purchase of land from the Lake View company will not be hindered from getting a perfect title to their land as soon as they have compled with the terms of the contract, as John Wolfskill, the owner of the land, will make them deeds direct instead of having it made through the Lake View company. Every one who purchased land under contracts will get the land just the same as though the Lake View company had not gone into insolvency. I do not think this company will ever be reorganized, but another company may be formed, or the matter taken charge of by a syndicate of capitalists who will put it through without experiencing the difficulties that the Lake View company has had."

POLICE COURT NOTES.

Dr. Robert Owens Fined for Refus ing to Move On.

The especial case of interest in the Police Court resterday was the trial of Dr. Robert Owens on the charge of obstructing the sidewalk. Dr. Owens is another of the luckless individuals who chanced to impede the sidewalk ostructing the sidewalk. Dr. Owens is another Ost the luckless individuals who chanced to impede the sidewalk on Main street, near First, where the police have lately had so much trouble in keeping the corners cleared. The doctor is a swarthy-looking individual, with long, silky, mutton-chop whiskers, and feels greatly outraged at having been thrown into the "hurry-up" wagon and carted off to the police station like a common felon. He explained to the court that he had merely stopped to converse with a friend, when an officer rudely ordered him to move on. He found it impossible to do so, because he was hemmed in by the crowd. When the officer ordered him to move on the second time, he felt irritated, and replied, "Go chase yourself," but the cop, instead of chasing himself, began to chase him. A second officer appeared on the scene, and together they hustled him into the "hurry-up" wagon in the most unceremolious manner, all of which the defendant thought was a disgrace and an outrage. He further stated that he believed the arresting officer was drunk. Officer Fay, who made the arrest, Officer Reynolds, who assisted him, and a citizen named Bucklin told a somewhat different story. They all agreed that Owens was asked to move on in a gentlemanly way, that he could have done so, but refused the second time, and told the officer he was "too fresh," and that he should "go and chase" himself. The defendant said he could have summoned a hundred witnesses to prove that he had committed no offense, but he seemed to think his own testimony was sufficient. Justice Owens, however, thought the word of these witnesses had more weight than the uncorroborated testimony of the defendant, so he found him guilty and fined him \$5. Owens was allowed two days' stay of execution.

A. C. Crary was fined \$10 for battering T. J. Fennessey while the latter was drunk. and Fennessey was fined

C. Crary was fined \$10 for batter-T. J. Fennessey while the latter drunk, and Fennessey was fined or being intoxicated. Both pleaded

guilty.

John Dwyer, a street-sweeper, was fined \$5 for shoveling dirt over the fence surrounding the Bullard building, now in course of erection. The proprietor of the building, finding that some one was doing mischief of this kind, had a watch set, with the result that Dwyer was caught in the act.

HIS STAR MAY FALL

Mounted Policeman Caught Napping by His Sergeant.

rency yesterday proves true, another star will fall at the meeting of the Police Commission tomorrow, or will at least cease to shine for a brief period in the official firmament.

About 8 o'clock last Friday evening Sergt Smith and Detective Auble left.

Whether the circumstances are sub Whether the circumstances are substantially as related above, or not, the fact remains that Officer Arguello is to appear before the commission today to answer the charge of sleeping on duty. It is understood that his defense will be that he telephoned to headquarters that he was very ill and requested permission to leave his beat, which was refused. Being overcome by his illness, he lay down without permission.

To Save the Drowning.

To Save the Drowning.

Prof. F. H. Killick will deliver a lecture this evening for ladies only, at the Y. W. C. A. rooms, on the methods of managing and resuscitating drowning persons. Practical illustrations will be given upon a member of the Y. M. C. A. The several systems used throughout Europe and America, and the various methods of grasping the drowned, as used by professional men in Europe, will be demonstrated. It will be shown that in the scientific method of saving the drowned, in rescue work, it is science and not physical strength that wins the day. Thursday evaning at the Natatorium will be given practical demonstrations, assisted by local talent. Both lecture and exhibition will commence at 7:45 p.m., and admission will be free to ladies, on applying to the secretary of the Y. W. C. A.

YOUR VACATION!

Some bargains worth looking after in

Summer or \$21 a week, including a round trip ticket from Los Angeles.

If a certain rumor that gained cur

in the official firmament.

About 8 o'clock last Friday evening Sergt. Smith and Detective Auble left the police station on their bicycles and did not return for several hours. When they finally came back they were covered with dirt and the perspiration was literally pouring from them. Had they been engaged in a Santa Monica road race they could not have presented a more grimy appearance. It was evident that they had a long and hard chase, but they would not tell the reporters anything about it further than to say that they had accomplished what they started out to do, and that the reporters would probably find out all about it next Tuesday, that is, today.

It leaked out yesterday, however, that Smith and Auble were simply shadowing a mounted officer who, it was alleged, was in the habit of going home and sleeping while he was supposed to be on duty. In order to confirm the report, it is alleged, the sergeant and the detective trailed the mounted officer last Friday night, with the result that the superiority, of the bicycle over the horse was again demonstrated. The story goes that they kept the mounted officer in view for several hours, during which time he galloped over the westtern hills, making it hard work for the cyclists to follow him. At length they saw him go to his home and go to bed. The result was the officer's suspension last Saturday on the very day his vacation of ten days on full pay was to begin.

Whether the circumstances are sub-

KNOCKED OUT.

A Decision Against the Wright Act.

Many Millions in Bonds and Property Involved.

Judge Ross in the United States Circuit Court Causes a Sensation.

The Law Practically Declared Unconstitutional—The Consequences Will be Tremendous and Farreaching-The Districts.

In the United States Circuit Court yesterday Judge Erskine M. Ross read a voluminous decision against the val-idity of the so-called Wright Irrigation idity of the so-called Wright Irrigation
District Law. The decision, as comported with its weighty subject, was
comprehensive and far-reaching, and
during the two hours' time required for
its reading held the respectful attention of a court-room full of lawyers and
others more or less directly interested
in the matter at issue. The decision
created a profound sensation, first in created a profound sensation, first in the court-room, later in legal and finan-cial circles of the city and, as its pur-port will be learned abroad it will become a subject of international discus-sion, many of the irrigation district bonds being held in the East and in Europe. The decision not only affects an amount of bonds estimated at from \$20,000,000 to \$50,000,000, but will make its impress upon future issues of securities for sale abroad, and is of such importance that it is here reprinted in

THE DECISION.

importance that it is here reprinted in full:

THE DECISION.

In the Circuit Court of the United States, Ninth Circuit, Southern District of California.

Maria King Bradley et al., complainants, against Fallbrook Irrigation District and others, defendants.

This is a suit in equity, by which it is sought to have enjoined the execution of a deed for certain land of the complainant, Maria King Bradley, under a sale made by the collector of the defendant irrigation district, to satisfy a delinquent assessment against the property, levied under and by virtue of the provisions of an act of the Legislature of the State of California, and its amendments, known as the Wright act (Cal. Stats. 1887, p. 29; id. 1889, pp. 15, 16, 17, 18 212, 213; id. 1891, pp. 53, 142, 145, 147, 244,) providing for the organization and existence of irrigation districts, and to obtain a decree adjudging the proceedings under the legislation, in so far as concerns the property of the complainant 'Maria King Bradley, void and of no effect. The regularity of the proceedings under the act is not questioned, and, as the Supreme Court of the State has sustained its validity in a number of cases hereinafter referred to, and, as the statute itself makes the deed executed pursuant to its provisions (except as against actual fraud) conclusive evidence of the regularity of all the proceedings from the assessment to the execution of the deed, and declares that it conveys to, the grantee the absolute title to the lands described therein free of all incumbrances, except when the land is owned by the United States or this State, in which case it is prima facie evidence of the right of possession, it cannot admit of doubt that a bill in equity is the proper mode of obtaining relief, if there is any to which the complainants are entitled. (Gage vs. Kaufman, 133 U. S., 473.) The principal ground of the suit is the alleged unconstitutionality of the Wright actit being contended by the constitution of the State of California, but also violated that provision o

by the act approved March 20, 1891, (Stats. 1891, p. 142,) that whenever fifty, or a majority, of the holders of title or evidence of title to lands susceptible of one mode of irrigation from a common source, and by the same system of works, desire to provide for the irrigation of the same, they may propose the organization of a district under the provisions of the act, and, when so organized, such district shall have the powers conferred, or that may thereafter be conferred, by law upon such irrigation districts. The equalized county assessment roll next preceding the presentation of the petition for the organization of an irrigation district, under the provisions of the act, it is declared, shall be sufficient evidence of title for the purposes of the act. Its second section, as amended by the act of March 20, 1891, is as follows:

"A petition shall first be presented in

purposes of the act. Its second section, as amended by the act of March 20, 1891, is as follows:

"A petition shall first be presented to the Board of Supervisors of the county in which the lands, or the greatest portion thereof, is situated, signed by the required number of holders of title, or evidence of title, of such proposed district, evidenced as above provided, which petition shall set forth and particularly describe the proposed boundaries of the district, and shall pray that the same may be organized under the provisions of this act. The petitioners must accompany the petition with a good and sufficient bond, to be approved by the said board of supervisors, in double the amount of the probable cost of organizing such district, conditioned that the bondsmen will pay all the said costs in case said organization shall not be effected.—Such petition shall be presented at a regular meeting of the said board, and shall be published for at least two weeks before the time at which the same is to be presented, in some newspaper printed and published in the county where said nettition is pre-

in the discretion of the board, upon application of the owner to said board, have such lands included in said district. Said board shall also make an order dividing said district into five divisions, as nearly equal in size as may be practicable, which shall be numbered first, second, third, fourth and fifth, and one director who shall be a freeholder in the division and an elector and resident of the district, shall be elected by each division; provided, that if a majority of the holders of title or evidence of title, evidenced as above provided, petition for the formation of a district, the Board of Supervisors may, if so requested in the petition, order that there may be either three or five directors, as said board may order, for such district, and that they may be elected by the district at large. Said Roard of Supervisors shall then give notice of an election to be held in such proposed district, for the purpose of determining whether or not the same shall be organized under the provisions of this act. Such notice shall describe the boundaries so established, and shall designate a name for such proposed district, and said notice shall be published for at least three weeks prior to said election in a newspaper published within said county; and if any portion of such proposed district lie within another county or counties, then said notice shall be published in a newspaper published within each of said counties, Such notice shall require the electors to cast ballots, which shall contain the words 'Irrigation District—No,' or words equivalent thereto, and also the names of persons to be voted for to fill the various elective offices hereinafter prescribed. No person shall be entitled to vote at any election held under the provisions of this act, unless he shall possess all the qualifications required of electors under the general-election laws of this State."

The third section provides how such cleaves of the vote, and that if, upon such canyass, it appears that at least two-thirds of all the votes cast are

election shall be conducted and for the canvass of the vote, and that if, upon such canyass, it appears that at least two-thirds of all the votes cast are "Irrigation District—Yes," the Board of Supervisors shall, by order entered on its minutes, declare such territory duly organized as an irrigation district under the name and style theretofore designated, and shall declare the persons receiving respectively the highest number of votes for the several offices, to be duly elected thereto, and shall cause a certified copy of such order to be imbe duly elected thereto, and shall cause a certified copy of such order to be immediately filed for record in the office of the county recorder of each county in which any portion of such land is situated, and shall also immediately forward a copy thereof to the clerk of the Board of Supervisors of each of the counties in which any portion of the heir respective offices upon qualifying according to law, and shall hold such according to law, and shall hold such offices respectively until their successors are elected and qualified. The third section of the act, as amended by that of March 20, 1891, also provides that "no action shall be commenced or maintained or defense made affecting the validity of the organization, unless the same shall have been commenced or made within two years from the making and entering of said order" of the Board of Supervisors declaring the territory duly organized as an irrigation district. Secs. 4 et seq. provide for sublistrict. Secs. 4 et seq. provide for sub-sequent elections, at which an assessor a collector, a treasurer, and a board of directors for the district shall be elected. directors for the district shall be elected. Sec. 11, as amended March 20, 1891, provides for the organization of the board of directors after their election; and by sec. 12, as so amended, it is provided that the board shall, among other things, have the right to enter upon any of the land to make surveys and may of the land to make surveys, and may locate the necessary irrigation works and the line for any canal or canals and

and the line for any canal or canals and the necessary branches for the same an any of the lands which may be deemed best for such location, and shall also have the right to acquire, either by purchase, condemnation, or other legal means, lands, waters, water rights, and other property necessary for the construction, use, supply, maintenance, repair and improvements of said canal or canals and works, including canals and works constructed by private owners, land for reservoirs, for the storage of needful waters, and all necessary appurtenances, and may also construct the necessary dams, reservoirs and works for the collection of water appurtenances, and may also construct the necessary dams, reservoirs and works for the collection of water for the district, and do any and every lawful act necessary to be done that sufficient water may be furnished to each land-owner in the district for irrigation purposes. And it is declared by the twelfth section of the act, as so amended, that the use of all water required for the irrigation of the lands of any district formed under the proviany district formed under the provi-sions of the act, together with the rights-of-way for canals and ditches, sites for reservoirs, and all other prop-erty, required in fully carrying out the provisions of the act, is a public use, subject to the regulation and control of the State, in the manner prescribed by law. By sec. 13 it is provided that the legal title to all property acquired un-der the provisions of the act shall vest in such irrigation district, and shall be held by such district in trust for uses and purposes therein set forth, and the board of directors is authorized to hold, use, acquire, man-age, occupy and possess the property ubject to the regulation and control of

of the notice, and, in the meantime, the assessment-book is required to remain in the office of the secretary for the inspection of all persons interested. Sec. 21 is as follows:

"Upon the day specified in the notice yeatherd by the preceding section for the meeting, the board of directors, which is hereby constituted a Board of Equalization for that purpose, shall meet and continue in session from day to day, as long as may be necessary. to day, as long as may be necessary, not to exceed ten days, exclasive of Sundays, to hear and determine such objections as to the valuation and assessment as may come before them; and the board may change the valuation as may be just. The secretary of the board shall be present during its sessions and note all changes made in the valuation of property, and in the names of the persons whose property is: names of the persons whose property is assessed; and within ten days after the close of the session he shall have total values, as finally equalized by board, extended into columns

Section 22, as amended by the act of March 20, 1891 (Cal. Stats, 1891, 147), is

as follows:
"The board of directors shall then "The board of directors shall then levy an assessment sufficient to raise the annual interest on the outstanding bonds, and at the expiration of ten years after the issuing of bonds of any issue must increase said assessment to an amount sufficient to raise a sum sufficient to pay the principal of the outstanding bonds as they mature. The secretary of the board must compute and enter in a sequence of the sunicient to pay the principal of the secretary of the board must compute and enter in a separate column of the assessment book the respective sums, in dollars and cents, to be paid as an assessment on the property therein enumerated. When collected the assessment shall be paid into the district treasury, and shall constitute a spe fund, to be called the bond fund of

rectors to cause such assessment and levy to be made as in this act provided, then the assessment of property made by the County Assessor and the State Board of Equalization shall be adopted, and shall be the basis of assessment for the district, and the Board of Supervisors of the county in which the office of the board of directors is situated shall cause an assessment roll for said district to be prepared, and shall make the levy required by this act in the same manner and with like effect as if the same had been made by said board of directors, and all expenses incident thereto shall be borne by such district. In case of the neglect or refusal of the collector or treasurer of the district to perform the duties imposed by law, then the Tax Collector and Treasurer of the county in which the office of the board of directors is situated must, respectively, perform such duties, and shall be accountable therefor upon their official bonds as in other cases."

By sec. 23, as amended by the act of

other cases."

By sec. 23, as amended by the act of March 20, 1891, (Cal. Stats. 1891, p. 149.) the assessment upon real property is made a lien against the property assessed from and after the first Monday in March for any year, and such lien is not removed until the assessments are paid or the property sold for the payment thereof. Subsequent sections of the act provide that in the event the are paid on the property sold for the payment thereof. Subsequent sections of the act provide that in the event the assessments become delinquent, the property shall be sold to pay such assessments, and, in the event the property so gold is not redeemed within twelve months from the sale, the collector or his successor in office is required to make to the purchaser or his assignee a deed of the property, which deed, duly acknowledged or proved, is (except as against actual fraud) made conclusive evidence of the regularity of all the proceedings from the assessment by the assessor, inclusive, up to the execution of the deed, which deed, the statute declares, conveys to the grantee the absolute title to the lands described therein free of all incum-

grantee the absolute title to the lands described therein free of all incumbrances, except when the land is owned by the United States or this State, in which case it is prima facie evidence of the right of possession.

The bill alleges, among other things, that included within the boundaries of the defendant irrigation district as established by the Second of Second

of San Diego county, within which county the district is situated, is a certain forty-acre tract of land owned by the complainant, Maria King Bradley, as her separate estate, which is of more than \$5000 in value, and which is known be held by such district in trust for uses and purposes therein set forth, and the board of directors is authorized to hold, use, acquire, manage, occupy and possess the property as provided in the act. By-sec. 15, as amended by an act approved March 20, 1891 (Cal. Statas, 1891, p 143), it is provided that, for the purpose of constitution of the provided that, for the purpose of constitution of the provided that, for the purpose of constitution of the provided that, for the purpose of constitution of directors and the state of the s as the southwest quarter of the south-east quarter of section 30, township 9 south, range 3 west of the San Bernar-dino Base and Meridian; that also in-cluded within the boundaries of the dis-trict as so established is a certain tract of land known and described as lots 1, 2, 3 and 4, and the east half of the north-west quarter of section 7 township 10

1891, the board of directors of the defendant irrigation district estimated and fixed upon, as the amount of money necessary to be raised for the purpose of constructing the necessary irrigation canals and works, and acquiring the hecessary property and rights therefor, and atherwise carrying out the purposes and provisions of the act in question, the sum of \$400,000, and that an election thereafter called to determine whether bonds in that amount should be issued for those purposes, the vote was favorable to the issue of bonds, after which, on the 5th day of January, 1892, the board of directors ordered that bonds of the district, negotiable in form, be issued to the amount of \$400,000, which order is still in force, and which will be carried into execution, according to the averments of the bill, as soon as purchasers for the bonds can be secured. It is averred that the complainant, Maria King Bradley, did not sign or join in the petition for the organization of the defendant irrigation district, and that all proceedings in regard to the assessment were had and taken against her will and consent; that the legislation under which the proceedings were had and taken is in violation of certain provisions of the Constitution of the Utilted States, as well as of the Constitution of the Utilted States, as well as of the Constitution and sole object of building a dam to catch rain and food water in the wet season of the year, extending from the month of November to the following May, and to divert which has been acquired by the district, and that the district and that the district, it is averred that the contemplated dam and other works are intended to be constructed on private property, none of which has been acquired by the district, and that the whole scheme is entirely experimental. would receive, incidentally, benefits such as usually spring from the improvement of lands or the establishment of prosperous private enterprises; the public use implies a possession occupation, and enjoyment of the land by the public at large or by public agencies, and a due protection of private property will preclude the government from selzing it in the hands of the owner and turning it over to another on vague grounds of public benefit to spring from the more profitable use to which the latter may devote it." And, after referring to the statement of a learned jurist that "if the public interest can be in any, way promoted by the taking of private property, it must rest in the wisdom of the Legislature to determine whether the benefit to the public will be of sufficient importance to render it expedient for them to exercise the right of eminent domain, and to authorize an interference with the private rights of individuals for that purpose, says: "It would not be entirely safe, however, to apply with much liberality the language above quoted that, 'where the public interest can be in any way promoted by the taking of private property,' the taking can be considered for public use. It is certain that there are very many cases in which the property of some individual owners would be likely to be better employed or occupied to the advancement of the public interest in other hands than in their own, but it does not follow from this circumstance alone that they may rightfully be dispossessed. It may be for the public benefit that all the wild lands of the State be improved and cultivated, all the low lands drained, all the unsightly places beautified, all delapidated buildings replaced by new, because all these things tend to give an aspect of beauty, thrift, and comfort to the country, and thereby to invite settlement, increase the value of lands, and gratify the public taste; but the common law has never sanctioned an appropriation of property based upon these consideraintended to be constructed on private property, none of which has been acquired by the district, and that the whole scheme is entirely experimental, uncertain and problematical, and that all of the money to be raised by the sale of the bonds so authorized to be issued and which, when issued, will constitute a lien upon all of the land within the district, may be expended by the district without obtaining any water for the irrigation of the land therein. It is averred that the defendant irrigation district was organized for the purpose of supplying the aforesaid 251.84-acre tract, owned by the State of California, and the aforesaid eighty-acre tract, owned by the United States, with water for irrigation, and that the board of directors of the district, in estimating and determining the amount of bonds necessary to be issued, made such estimate and determination upon the basis that it would be necessary to construct works and acquire water rights sufficient to irrigate all of the lands in the district, including the 90 and 251.84-acre tracts, and that the amount of bonds necessary to be issued were increased at least 39000 by reason of those two tracts being included. It is alleged that the actual cash value of the eighty-acre tract is not less than \$7500, and that the actual cash value of the eighty-acre tract is not less than \$7500, and that the actual cash value of the lighty-acre tract is not less than \$7500, and that the actual cash value of the lighty-acre tract is not less than \$7500, and that the actual cash value of the bill, which, in turn the proceedings being regular,) depends upon the validity is asserted by the complainants upon the grounds, among others, that it provides for the laking, of private property without due process of law, contrary to the provisions of the fourteenth amendment of the Constitution of the United States, and that the use for which such property is theretry, and thereby to invite settlement, increase the value of lands, and gratify the public taste; but the common law has never sanctioned an appropriation of property based upon these considerations alone, and some further element must, therefore, be involved before the appropriation can be regarded as sanctioned by our constitutions. The reason of the case, and the settled practice of free governments must be our guides in determining what is or is not to be regarded as public use, and that only can be considered such where the government is supplying its own needs, or is furnishing the facilities for its citizens in regard to those matters of public necessity, convenience, or welfare which, on account of their peculiar character, and the difficulty—perhaps impossibility—of making provision for them otherwise, it is alike proper, useful, and needful for the government to provide.

"Every government is expected to make provision for the sublic necessity.

"Every government is expected to make provision for the public, ways, and for this purpose it may seize and appropriate lands. . The government also provides courthouses for the administration of justice; buildings for its seminaries of instruction; aqueducts to convey pure and wholesome water into large towns; it builds levees to prevent the country being overflowed by the rising streams; it may cause drains to be constructed to relieve swamps and marshes of their stagnan swamps and marsnes of their stagnan water, and other measures of genera utility, in which the public at large are interested, and which require the appropriation of private property, are also within the power, where they fall within the reasons underlying the cases mentioned."

of private property without due process of law, contrary to the provisions of the fourteenth amendment of the Constitution of the United States, and that the use for which such property is thereby authorized to be taken is not a public use. Similar objections to the legislation were urged in some, if not in all, of the cases involving its validity that were determined by the Supreme Court of California, and were by that court held not well taken. (Irrigation District vs. Williams, 76 Cal., 360; Irrigation District vs. DeLappe, 79 Cal., 352; Crail vs., Poso Irrigation District, 87 Cal., 140; Board of Directors vs. Tregea, 38 Cal., 334, and in re Madera Irrigation District, 92 (Cal., 296.) While the decisions of that court in those, as well as in all other cases, are justly entitled to great respect, this court is not at liberty to decline to exercise its own independent, judgment in determining also within the power, where they fall within the reasons underlying the cases mentioned."

Can it be properly held that within the reasons that underlie any of the cases in which private property may be taken for a public use falls the case where it is sought to take such property in order to supply water only to certain individuals within a certain district? I think not. The property to be held by the corporation whose creation is provided for by the legislation in question is not, as said by the Supreme Court of California in re Madera Irrigation District, 92 Cal., 322, to be held "in trust for the public," but in trust for the land-owners of the district, and for nobody else. Manifestly, they do not constitute the public, whether they number many or few; and for their exclusive use the private property of no man can be taken without his consent. "To lay, with one hand," said the Supreme Court of the United States, in Loan Association vs. Topeka, 20, Waliace, 655. "the power of, the government on the property of the citizen, and with the other bestow it on other individuals to aid private enterprises and build upprivate fortunes, is not the less a robbery because it is done under the forms of law, and is called taxation," In Cummings vs. Peters, 56 Cal., 593, it was held that several owners of mines could not condemn a right-of-way for a ditch through which to convey water erty to decline to exercise its own independent, judgment in determining whether any State legislation violates a provision of the Constitution of the United States. Nor can the decision of any State court be conclusively binding upon any Federal court in respect to the question whether or not the use on behalf of which the power of the State is sought to be exercised is of such a nature as that it can be legally exercised. "Its solution," said the Supreme Court, in Olcott vs. Supervisors of Fond du Lac county (16 Wallace, 678.) "must be sought, not in the decisions of any single State tribunal, but in general principles common to all courts. The where the significance as that it can be inpuly energy of the control of the property of t

in this act cannot be vindicated on the plea that it directly conduces to the general welfare of the community. It does not seem open to question that it is the owners alone who are interested in the compulsory improvement of these lands. True, in such cases, there is a resulting gain to the public, but this is nothing more than the inevitable incident of individual prosperity; the effect of drainage is to cause a more plentiful product than the land would yield in its unreclaimed condition; in this result, the owner is directly interested; the community indirectly only, and it is a perversion of legal terms to call the enterprise, on account of such collateral advantage, a public one. So false is such a contention, that, if yielded to, it would legalize the compulsory establishment of manufactories or the converting of forests into arable land, or the execution of any private enterprise whatever, as, in all such matters, the State has a remote interest. To call the legislative flat that a half dozen persons shall drain their land at their joint expense, and for their private advantage, an exercise of the taxing power of the State, is, in my judgment, simply a misnomer. Nor is such an exercise of power any more justifiable, if it is to be derived merely from the nature of the legislative authority, than would be an enactment commanding A and B to farm their several lands at their joint expense; and yet no one will pretend that this can be done. Under a constitution that guarantees the involubility of private property, and limits the law-making power to the function of legislation, it appears to me entirely inadmissible to claim that it is a legitimate use of the prerogative to legislate, to enact a law, such as the present one, requiring a few land-owners to improve their lands for their own profit, and at their own expense. I regard it as a clear infringement of the constitution to take, by force of a statute, the money of a person from him, even though such money should, against his will, be used for his priv

individuals, namely, the land-owners of the district.

Another fatal objection to the maintenance of the legislation here in question, under the right of eminent domain, is, that, if it be regarded as undertaken by the public primarily as a matter of public concern, the assessment upon the land-owners must be limited to benefits imparted, which is not the case with this statute. (Wurts vs. Hoagland, 114 U. S., 613; The Tidewater Co. vs. Coster, 18 N. J. Eq. Rep., 527.)

water Co. vs. Coster, 18 N. J. Eq. Rep., 527.)

It does not seem to me to admit of doubt that, if the act in question can be maintained at all, it must be under the power of assessment for local improvements, or, as expressed by the Supreme Court in Wurts vs. Hoagland, supra, "the power of the Legislature to establish regulations by which adjoining lands, held by various owners in severalty, and in the improvement of which all have a common interest, but which, by reason of the peculiar natural condition of the whole tract, cannot be improved or enjoyed by any of them without the concurrence of all, may be reclaimed and made useful to all at their joint expense." But no more than any other can that power be exercised without "due process of law."

Not only does the legislation in question provide for the assessing and selling, and thus for the taking, of private property in order to supply water for irrigation to specific persons within the district, and to those only, but all of this is authorized to be done without affording the owner any opportunity to be heard in opnosition to the validity

declares, the board of supervisors "shall hear the same, and may adjourn such hearing from time to time, not exceeding four weeks in all, and, on the final hearing, may make such changes in the proposed boundaries; provided, that said board shall not modify said boundaries so as to except from the operation of this act any territory within the boundaries of the district proposed by said petitioners, which is susceptible of irrigation by the same system of works applicable to other lands in said proposed district, nor shall any of the lands which will not, in the judgment of said board, be benefited by irrigation by said system, be included within such district; provided, that any person whose lands are susceptible of irrigation from the same source may, in the discretion of the board, upon application in writing to said board, have such lands included in such district."

Notwithstanding the fact that the petition is, by the statute, made the basis of the proceeding which is to culminate in divesting the title of the owner of sand asainst his consent, there is here not only no opportunity afforded such owner to test the sufficiency of the peatition, but the power of, the board of supervisors is in terms limited to making such changes in the boundaries proposed by the petitioners as it may deem proper, subject to the condition that it shall not except from the operation of the act any territory within the same system of works applicable to the other lands in said proposed district, nor include within four weeks after the presentation of the petition, any lands which, in its judgment, will not be benefited by Irrigation by the same system of works. Every one must admit that in the matter in question the board of supervisors has only such power as is expressly or by necessary implication conferred upon it by the statute itself. Not only is it not they sufficiency of the petition, but the express statutory requirements preclude any such inquiry by it, at the Instance of any owner of land adversely affected, or at al

number of holders of title or evidence of the to lands within the district, and if not, there was no basis upon which the procedings could rest.

Whatever construction might otherwise be placed upon the word "hear," used in the statute, it cannot be held to include the power to determine the entire merits of the petition, in view of the affirmative requirement contained in the same sentence that on its final hearing the board "shall establish and define such boundaries." The board is of necessity required to determine for itself whether the petition upon its face is sufficient to put its powers in motion; yet, its determination in that respect is not conclusive upon any one. As said by Judge Bronson, in speaking of a similar petition, in Sharp vs. Spier, (4 Hill, 88.) "they could not make the occasion by resolving that it existed. They had power to proceed if a majority petitioned, but without such a petition they had no authority whatever. They could not create the power by resolving that they had it." The statute does not require or authorize the board of supervisors to hear any contest in respect to the truth of the allegations of the petition, further than is implied by the provision that it may make such changes in the proposed boundaries as it may deem proper. Had it been empowered to entertain a contest, for example, by a land-owner in respect to the question whether those signing the petition were in truth, the holders of title, or the evidence of title, to lands susceptible of one mode of irrigation from a common source, and by the same system of works, and it should find in favor of the contestant upon that issue, it would necessarily be obliged to deny the petition and dismiss the proceedings. Yet, so far from that course being allowed by the statute, it provides, as has been seen, that the board of supervisors shall hear the petition, and may adjourn such hearing from time to time, not exceeding four weeks in all, and, in express terms, declares that on the final hearing of such poposed district, an

chaser, the consequences attaching to which deed have already been stated.

From siret to leaf, at no time or place, given the opportunity to be heard in respect to the essential and all-importunity control of the co

due process of law, but, if found to be arbitrary, oppressive and unjust, it may be declared to be not 'due process of low."

Is it not arbitrary, oppressive and unjust to take one's property without affording him any opportunity to show the insufficiency of the very thing that forms the basis of the proceedings under which the taking is to occur without allowing him to show that the petition required by the statute as a condition precedent to the organization of the district, massessment, no sale, no conveyance, never, in fact, existed? Surely, upon that vital, all-important question, the owner is entitled to be heard, and, just as strely, to take his property without affording him that opportunity, is arbitrary, oppressive and unjust. Assessments in California for the purpose of reclaiming overflowed and swamp lands, to which the Supreme Court of California, in the cases cited, likened the irrigation districts, sure enforced by suits, in which, as held by the Supreme Court of the United States in Hagar vs. Reclamation District, supra, the owner may set up, by way of defense, all his objections to the validity of the proceedings, and he is, therefore, in such proceedings, and he is, therefore, in such proceedings, and he is, therefore, in such proceedings, and he was not instituted to be taken, is not afforded any opportunity whatever, at any time or place, before any board or tribunal, to question, the sufficiency of the very thing that lays at the foundation of the whole proceedings.

This vital objection to the legislation in question is in no manner answered by the fact that, by a supplemental act of the Legislature of California, approved March 16, 1889 (Cal. Stats. 1889, pp. 212-213.) The board of directors of any irrigation district is authorized to commence a special proceeding in a superior sourt of the county in which the lands, or some portion thereof, are situated, in which, after the publication of not petice of the proceedings which may affect the legality or validity of said bonds and the order

the sale thereof." Such a proceeding may or may not be instituted by the board of directors of the district, and was not instituted in the present instance, so far as appears from the bill. No man's constitutional rights can depend upon an option which may or may not be exercised by another.

Apart from the objections already considered, which go to the validity of the statute itself, it would be difficult. I think, if not imposible, to sustain its applicability to a case where there is no stream or body of water in existence from which the district can obtain water with which to irrigate the lands within the district, and where, according to the averments of the bill, the proposition is to take private property to build works to catch and distribute, for the purposes of irrigation, rain and flood water, which may or may not come in sufficient volume. It would seem quite unreasonable to hold that private property can be taken for any such experimental purpose—especially where, as here, according to the allegations of the bill, one piece of land within the district designed to be thus irrigated belongs to the United States, and another to the State of California, both of which are exempt from assessment, but whose inclusion for irrigation purposes adds \$1000 to the amount for which bonds have been authorized, and which, when issued, will be a lien upon the property of the complainant Maria King Bradley, and under which it may be sold and conveyed.

The fact that vast sums of money have been invested in works constructed under and in pursuance of this legislation, and that bonds running into the millions have been issued and sold thereunder, and that many individuals may not otherwise be able to secure water for the irrigation of their respective tracts of land, and that the validity of the legislation has been several times sustained by the Supreme Court of the State, while demanding on the part of this court great care and caution in the consideration of the United States which protect the private property of e

The views above expressed render it innecessary to consider other objections urged on the part of the complain-

recommending the main points of the Wright act in framing irrigation laws for the use of their own States respectively. At the congress held last year in Denver these instructions were renewed and like notices were sent out, but in each case the weak points of the law were pointed out.

WHAT MR. WARD SAYS.

law were pointed out.

WHAT MR. WARD SAYS.

Shirley C. Ward, Esq., who is attorney for a number of holders of irrigation bonds, when seen last night by a Times reporter spoke of the probable effect of Judge Ross's decision as follows:

"The effect of the decision upon the rights of bondholders is not as serious as it would appear at first blush. In similar cases where bondholders have parted with value for bonds issued under a law held to be unconstitutional the courts have held that the bondholders were in equity entitled to an equitable lien upon the property purchased with the proceeds of the bonds, and I think it is only reasonable to expect our courts to hold that the title to the property acquired by sale of irrigation district bonds will follow the consideration, and will vest in the purchasers of such bonds. At least to the extent of the consideration furnished.

"To accomplish this result will doubtless require much litigation between bondholders and the property-owners in the irrigation districts, but I believe it will result in an equitable solution of the complications which at first glance would seem appalling. Of necessity, there must be a readjustment of right and obligations with reference to the use and control of the water systems that have been acquired by the various irrigation districts, which will probably result in compelling the actual users of water to bear the great burden of maintenance and operation of the several water systems.

irrigation districts, which will probably result in compelling the actual users of water to bear the great burden of maintenance and operation of the several water systems.

"By this means the owner of unimproved lands will no longer be a contributor to the revenue of the bondholder and the burdens of the actual water user and property improver will be somewhat increased, and for the time being there will of necessity be a shrinkage in the annual returns to the bondholder, but ultimately in some districts, he will be better off as owner of the irrigation system than he would be had he continued owner of the bonds, as many of the irrigation districts have gotten full value received for all proceeds of bonds that have gone into water rights and irrigation plants, and these will grow more valuable as time passes.

"Doubtless appeal from this decision of Judge Ross will be taken at once and every effort made to get the same before the United States Supreme Court this fall at the same time as the case of Trogea vs. Modesto Irrigation District, there on appeal from the Supreme Court of this State. In some respects it is fortunate for all concerned that this decision of Judge Ross should have been rendered at this time for the reason that it will afford the United States Supreme Court an immediate opportunity to pass upon the broad question of the constitutionality of the Wright act whereas the Modesto case might be decided on a purely jurisdictional question, and the merits of the case in no way touched. It is to the interest of all parties to know at the earliest date possible whether the law is constitutional or not.

"Until the decision of the Supreme Court is had such uncertainty will prevail, both in the minds of bond investors and property-owners within the trigation districts, as will cause a practical cessation of all operations looking toward the completion of water systems for irrigation districts and all material developments and improvements therein."

HOW FT AFFECTS SAN DIEGO

SAN DIEGO, July 22—(Special Dispatch.) The decision that the Wright Irrigation Act is unconstitutional affects the validity of millions of dollars worth of bonds issued by the districts in this county, and threatens to upset prodigious plans for the immediate irrigation of thousands of acres. The possibilities for litigation opened by this decision are considered innumerable if the decision is sustained by the Supreme Court as the leading lawyers here think that it will be, because Justice Field is believed to have concurred with Judge Ross.

Over \$250,000 worth of bonds of the Escondido district already sold may become invalid. The decision makes the deed of the reservoir site of this district technically worthless, as the district did not exist, according to today's decision, in the eye of the law when the deed was made to it.

Of the \$1,000,000 of the Linda Vista district bonds, \$150,000 are cutstanding,

Red Letter Sale.

Better Than Banking Money...

Red Letter Sale Prices on Parlor Furniture mean a saving to you on every dollar of 25c. A bus iness man who is quick to see took \$1000 worth of furniture last week and had it stored until his new house should be completed. He saved \$250 by the transaction. Other keen buyers are doing the same on a smaller scale. The prices of today are lower than almost any furniture house in the city can buy at. The trend of the market is upward. Your own judgment must tell you if now is the right furniture time.

Hundreds of odd Parlor Pieces, in quaint, old, new-fashioned shapes, share in the price lowering.

A large display of 3-piece Parlor Sets, every single one of which you will find at a lowered price.

5-piece Oak Frame Parlor Sets, covered with close \$28 woven tapestry (very durable,) may go at

5-piece Oak Frame Parlor sets, covered with plush, \$35 you'd expect in the ordinary way to be \$50. are.....

5-piece Mahogany Finish Parlor Sets, richly covered, \$43 that meet you in most stores at \$60, are.....

Many of the most elegant Mahogany Parlor Sets, now marked \$100, on which the saving is \$25 or more.

Cash is our creed. No Goods charged at these prices.

LOS ANGELES FURNITURE CO., 225-227-229 South Broadway.

but the decision invalidates important contracts with the Mountain Stream Water Company for the immediate irrigation of 42,000 acres of fruit land, and may have serious effect in defeating plans for an increased city water supply, earnestly hoped for. Perris, Fall-brook, Otay and Jamacha are other irrigation districts covering large tracts of valuable land affected by the decision.

of variable said alected by the decision.

While there is a considerable sentiment here opposed to the Wright law, yet the general belief prevails that the effect of the decision will be a serious set-back to the immediate needed irrigation. Ultimately these irrigation systems will be perfected, but wide-spread confusion seems certain for some time to come. Several irrigation districts believed to have been managed by unscrupulous directors, who took advantage of the Wright law for selfsh, personal ends, may receive benefit by having the act declared unconstitupersonal ends, may receive benefit by having the act declared unconstitu-tional.

AN ORATORICAL CONTEST. Its Aim Was to Help the Suffrage

As usual, a good many women and a very few men gathered at Grace Methodist Episcopal Church last evening to imhibe the truths of women's suffrage, administered in the form of a "Ninteenth Century Contest. a "Ninteenth Century Contest." There were six speakers, Mmes. Roth, Riner, Keefover, Saxton and Heachem and Mr. Weston. They really did very well, with good delivery and good articulation. The judges, Miss Florence A. Dunham, the Hon. Will D. Gould and J. Freeman Cook, awarded the silver medal to Mrs. Mary J. Saxton. Mrs. John P. St. John presented the pretty souvenir with a graceful little speech. Miss Carrie Hicks furnished the musical part of the programme, two vocal solos.

CHAUTAUOUA ASSEMBLY.

CHAUTAUQUA ASSEMBLY.

THE SUMMER SCHOOL ORGANZED AT LONG EEACH.

A Great Anditorium is Needed—The Study of Bugs and Thurz—Discussion of Padagogy—Ontion on the Whirling of Tine—General Notes.

LONG BEACH, July 2:—Special Correspondence) The summer school is bring general with a view to making the correspondence of Progression of Progression of Long and the Whirling of Study of St

pectations. There is nothing superficial in the scientific investigations they are making. Good microscopes are assisting them to get into the minute structure of fund, mould, etc. The study of the simplest in vegetable forms has led them up to marine plants, which will be discussed tomorrow.

Prof. Cook has a very interesting class in entomology, which meets at 10 o'clock each day. The modern method inaugurated in the United States by Louis Agassiz, whose pupil he was, of studying the object and not books is followed exclusively.

A typical specimen of each order is taken and thoroughly studied, drawn, and orally described, by each pupil. It is brought out by suggestive questions, how use brings modification and so how structural peculiarities have originated, and why certain characteristics are valuable in classification in one group and of no importance in another.

other.

Each student sees how structure is the key to habits, and so reveals the insect enemy or friend, as the case may be. In the class are teachers, clergymen, and orchardists. The teachers learn methods, and how they can make the study of insects intensely interesting and very valuable in developing the power to observe closely, see accurately and reason correctly. The clergymen wish to use entomology as a lever to raise the Junior Endeavorers into the pure atmosphere which ever surrounds the student of nature. The ranchers wish to know how to detect their friends and enemies in the real work of their and enemies in the real work of their orchards. One has only to look in upon this class to see that each is gaining his

this class to see that each is gaining his object.

Prof. Elmer E. Brown, in discussing "Pedagogy" this afternoon, talked upon education related to manual training. Among other things the profes of said that schools in the main, devote themselves to the training of the mind, to the side of reception—the taking in of material—and not to the motor side, the part of the mind which gives out. The kindergarten comes nearest to educating these two sides equally. I am strongly of the opinion that too much attention has been paid to the side of reception and not enough to constructive activity. The audience discussed the subject, showing much favor toward Throop Polytechnic Institute and the principles upon which it is based. Prof. Brown

The audience discussed the subject, showing much favor toward Throop Polytechnic Institute and the principles upon which it is based. Prof. Brown agreed with the statement that students of such courses are able to get much gain from the addition of manual lines to the high school work, and was almost prepared to indorse the statement that in a given time more work could be done if hand work were combined than when merely book work was the method of instruction.

At 4 o'clock this afternoon Prof. Cook delivered a physiological lecture in Forester's Hall to his class and a large number of interested others. The address was practical and full of the kind of information which Prof. Cook knows how to give and his audiences are learning how to value. Miss Murphy met her elocution class at the Presbyterian Church at 5 o'clock. Her classes are very large, for her work is practical. Elocution with her means the good reader and good talker. Her work is valued by the members of the assembly, who are taking this line of work in the summer school, and her appearances before the audiences are welcomed.

At 5 o'clock Rev. Dr. Hirst presided at the round table. The discussion was participated in by Mrs. E. J. Dawson, Pacific Coast secretary of the Chautauqua work. Her home is in San Jose, and she comes with a view to still further organize the work in Southern California, and to devise ways and means for a closer organization of the work in California.

Rev. Dr. Hirst of San Francisco delivered another one of those artistically-finished prations for which he is noted. His subject this afternoon was "The Whirligig of Time." Before beginning his lecture he stopped to pay a compliment to the newspapers, saying that they had taken a wonderful interest in the assembly, and that the Chautauqua should by resolution give them hearty thanks. His remarks were greeted with applause. The doctor's lecture portrayed to his audience the history of mankind in history and ethics. Hie took his audience from peak to peak and mountain top of worl

PASADENA.

A CHURCH CELEBRATED ITS SEV ENTH ANNIVERSARY.

A School Principal Who Denies That He Kissed the Girls-Opposition to Disintegrated Granite as a Paving Material-Personal Notes

PASADENA, July 22.—(Regular Co respondence.) Sunday was a day long to be remembered by the members of the North Congregational Church, for it marked the seventh milestone in the progress of that institution. Seven years ago the church was organized in a barn on North Fair. Only 1972 barn on North Fair Oaks avenue, ear the Bainter Hotel. Since that time ne membership has steadily increased and not only has the congregation a beautiful church home, but its career has been one of continued harmony. There has never been a division of any sort among the people, and the work of the church has been effectually carried out in a spirit of liberality that is commendable from every point of year. put in a spirit of liberality that is com-mendable from every point of view. Its pastor, Rev. Henry T. Staats, has been th incumbent during the entire life of the institution, and is the oldest of the pastors in charge in Pasadeha, as all of the churches have changed ministers once, twice or more times in that pe-riod.

HE SAYS HE DIDN'T.

G. W. Strominger, who was accused of kissing his young lady pupils as a punishment, and who was removed from the public schools by the trustees "for eause," says he didn't. He intimates that those who exposed what might be called in legal phraseology "cruel and unusual punishment," were actuated by a spirit of malice; and thathe might retailate by saying a lot of uncomplimentary things about them, but he won't. He quotes an eminent authority as advising him to this course. Satan says, "Do it." but he resists the unholy prompting, and will HE SAYS HE DIDN'T. authority as advising him to this course. Satan says, "Do it," but he resists the unholy prompting, and will "forever wash his hands of such filth. He takes a high moral ground and forgives his "enemies," but makes no specific denial of the kissing. In the meantime the sentiment of the young lades of the community, whatever it may be on the subject of kissing per se, is vindicated by the action of the school board, and Mr. Strominger is in the Pecksniffian frame of mind to forgive the people who have "injured him."

There has been much discussion in the community in the last tex-months upon the subject of paving material, and many opinions for and against disintegrated granite have been expressed. The Street Superintendent voices the opinion of many people, when he says that the material which the Supervisors have placed on the road outside the city limits, is mud when wet, and fine dust when dry." and the property-owners in that vicinity have prepared a petition which will be presented to the next meeting of the Council, asking for the paving of the thoroughfare with macadam, from the limits to Marengo avenue. It is deemed a far better coating than the granite, though it will cost more to begin with, and it is thought the Council will favor the idea, and will grant the prayer of the petitioners.

AGAINST DISINTEGRATED GRAN

PASADENA BREVITIES.

S. E. Sloan, a man suffering from al-coholism or insanity, maybe both, so shamefully abused his wife at their home on Villa street Sunday night, that home on Villa street Sunday night, that the neighbors were seriously contemplating the tarring and feathering of the brute, when word was received this afternoon that he had applied at the County Jall for quarters, stating that he believed himself insane and wished to be restrained. The neighbors say that he is undoubtedly deranged and that there is danger that he will commit murder if allowed to remain at large. For months the family has subsisted on the charity of the community and the wife states that her husband was formerly there treatment for a mental trouble.

The Passadena, Security and invest-

The Pasadena Security and investment Company is the proud possessor of a golden eagle, which it has received from Ex-Gov. Marshall of Minnesota. We do not mean to state that the Investment Company, has been the recipient of what "Chimmile Fadden" would call "twenty plunks," or a coin stamped with Uncle San's emblein and which is denominated "golden eagle' in the table of United States money, but a stuffed bird of gigandic proportions. Perhaps the mascot may influence the oil-boring which the company is carrying on, and which has proceeded to a depth of about six hundred feet, with indications of the fluid, but as yet no flow.

flow.

Just below Lincoln Park one of the electric cars jumped the track about II o'clock Saturday night, and the passengers were not only badly shaken up and frigitened, but were delayed until colock in the morning. These accidents are not only annoying, but they are apt to destroy the confidence of the people in night traveling on the electric cars, and it is deplored by those who have the interests of the road at heart, that they cannot be prevented.

The march of improvement has struck

that they cannot be prevented.

The march of improvement has struck the old Ward Block. The renovation of the Williams Block on the northeast corner of Fair Oaks and Colorado, made the Ward Block, diagonally across from it, appear dingier than ever, and now that building is being thoroughly renpyrated, painted and repaired, and when the work is completed it will add much to the appearance of that part of the street.

am pm pm

IN.

-270.

the work is completed it will add much to the appearance of that part of the street.

The case of Robinson of the Saddle Rock restaurant, for selling liquor, will be brought up Wednesday morning at 10 o'clock, and as it is to be a jury trial, strong efforts will probably be made to secure conviction; as a precedent for future operations, great interest is manifested. It is said the defense will probably be that the fiquor was neither sold nor given away, and that no penalty can be applied.

The \$:30 Terminal train to San Pedro Sunday morning was delayed for about half an hour by a peculiar accident. In some manner the cow-catcher of the engine caught in the board planking on the crossing of the road with California street and ripped it up to that extent that repsilrs had to be made besofote the train could proceed.

J Mohr took "mohr" than was good for him this afternoon, though there was still some left in the bottle when he was taken to the City Jail charged with being drunk and disorderly. The amount of his repentance will probably be assessed when he is brought before Recorder Rossitur Tuesday morning.

Special drives in wash goods Wednesday, with a good-by price on them, at the Bon Accord.

Af Mr. Lippincott's handsome home on North Madison avenue may be seen some of the finest hydrangeas in Passadane. The flowers, especially roses, are

not suffering from hot weather, this summer, but are nearly as abundant, and quite as beautiful, as in early June.

Dr. J. B. Talcott left this evening for an extended trip through the Eastern States. He will be absent about three months, visiting New York, Boston, Philadelphia and Washington, as well as that portion of Ohio where he spent his early youth.

An electric car late last night ran into a buggy and broke it to pieces. The horse ran away, and the two young men who were the occupants of the vehicle, were obliged to take a train to Los Angeles, from which place they had driven out in the afternoon.

Miss Plant of North Cypress avenue

Miss Plant of North Cypress avenue started to Chicago today. She will make an extended visit in that city and vicinity, spending the larger part of the time at Sterling, Ill., where she has many friends and relatives.

Misses Florence and Lillian Dodworth will go to Catalina Tuesday, where they will remain for a week, the guests of Mrs. W. T. Fletcher. Mr. and Mrs. S. T. Cristy and family will also spend the next week at Avalon.

There was an unsuccessful attempt at burglary made Sunday night on Chestnut streetnear the Universalist Church. The would be thieves were frightened away by the barking of a little dog inside the house.

Messrs. Will Pinney, Charles Fabrick and T. W. Johnston, and May, Grace and Helen Johnston and Ethel Fabrick, will leave Pasadena Tuesday for a fortnight's outing at Catalina.

Dr. Radebaugh, Rev. Mr. Gushee, C. E. Monfort, W. T. Staats, Mr. Hell and H. Clifford Rogers, who have been so-journing for a time at Catalina, have returned to Pasadena.

J. F. Hafsted and wife were the

J. F. Hafsted and wife were the guests of Mr. and Mrs. Calvin Hartwell at Long Beach Sunday. Recorder Rossitur-was also one of the visitors at that resort.

where he will visit friends and relatives.

Attend the clearance sale of ladles'
shirt waists at Gardneh & Webster's.

Miss Katherine Ross of the Bon Accord is spending a week at Catalina.

Nearly sixty people spent Sunday at
Camp Martin, Mt. Wilson.

RIVERSIDE COUNTY. Sudden Death of a Prominent Citi-

sen-Other Notes. RIVERSIDE, July 22.—(Regular Correspondence.) Thomas G. Whaite died suddenly and unexpectedly at his home, suddenly and unexpectedly at his home, Orange Grove avenue, yesterday even-ing. He had been sick but a few days. Mr. Whalte came to Riverside from Manchester, Eng., five or six years ago with his family. He was an artist of considerable note where he came from. He was a man of wealth, and all with whom he had become acceptance in the way an artist of considerable note where he came from. He was a man of wealth, and all with whom he had become acquainted since coming to Riverside know him as a genial and pleasant gentleman. The family consisted of Mr. and Mrs. Whaite and three grown-up children, a son and two daughters. The two daughters are here and the son, who daughters are here and the son, who resides in San Francisco, will arrive this evening. The funeral will take place from the home tomorrow morning.

Prof. G. W. McGinnis of Riverside has been elected to the chair of mathematics in Curry University at Pittsburgh, Pa., at a salary of \$250 per year. He taught for many years near that city before coming to California. Both he and the university are to be congratulated. He is a bright, energetic, genial gentleman of fine scholarship and mathematical ability and has made a host of warm friends in Riverside who regret his departure and who unite in wishing him unbounded success in his new field of labor to which he expects to go in a few days. He will retain his residence in Riverside. Curry University had over 1700 students last year.

C. H. Low and wife return to Laguna today where they will remain until they go to Chicago.

Willis Hallock is enjoying a visit from his grundmother, Mrs. Phebe Hallock of San Jacinto. Mrs. Hallock is a woman 80 years of age and has a number of great-grandchildren.

Charles Sunnious and family of San Jacinto are now residents of Riverside, Mr. Sunnious having leased the L. C. Tibbets sixty-acre alfalfa ranch on West Central avenue.

-T. W. Scott of Landsdowne Crescent, London, is stopping at the Hotal Holyrood, having agrived in this oily Sunday. He hopes to remain here permanently. His sister, Miss Scott, also of England, will visit him in September.

-A delightful surprise party was given Mrs. D. Littell of East Riverside by her many friends a few evenings ago.

-Everybody will be pleased to learn that S. C. Evans, Jr., is so far recovered from his recent liness as to be able to go to San Diego Monday, where he will spend a month of two of the summer.

Lice, most people who go back East after a lengthy residence in Southern California, J. Ji. Yeakle, how of Harrisburg, III. writes that he has about made up his mind to, return to Riverside. He says he has remained away from here to show that he could, but he does not want to do it again. He adde that they have paid \$3.50 per box for rather interior navel oranges this season, and they were not very pentitul.

RIVERSIDE WHEEL NOTES.

IMPORTANT TO FRUIT OROWERS.
Use P. & B. Sulphur-proof Building Papers for making your sulphur-houses, and save the expanse of lumber. Write for circulars and samples. Paramne Paint Co., No. 221 South Broadway, Los Angeles.

DEATH RECORD.

ORANGE COUNTY.

BICYCLE ROAD BACE ALL AROUND THE KIPE.

Weighing Ten Pounds-Successful Meeting in the "Emanuel" Car-Other News.

SANTA ANA, July 22.—(Regular Cor-respondence.) A mistake occurred in The Times this morning which, in justice to one of the best-known horsemen of this section, should be connected. The article was all right with one exception, to wit: "Mr. Raymond sold and repurchased Klamath two or three and repurchased Klamath two or three times, and we believe it is by his widow that this hoted trotter is now owned." If the writer could see "Tom" Ray-mond coming down the home stretch behind the network of legs that belong behind the network of legs that belong to Klamath, and yelling "Eat 'em up. cookie!" he would realize that Mr. Raymond's widow is a personage that can only be dimly conjectured at the present time. Mr. and Mrs. Raymond are among our happiest people, and there is no occasion to suppose that "Tom" will ever die from his appetite and appearance when he left here. AN OLD CASE.

The time of the Superior Court today has been fully occupied with the case The time of the Superior Court today has been fully occupied with the case of Jacob Yaeger vs. the Southern California Railway. H. W. Chynoweth of Anaheim, and Charles S. McKelvey of this city, are representing the plaintiff, and J. M. Lucas of Los Angeles is looking after the railroad interests. The following jurors were selected: Ira Chandler, D. M. Burns, T. H. Borden, L. J. Stanley, T. B. Van Alstyne, J. A. Buckingham, John H. Magonety, N. S. Adling, Thomas M. Holt, M. D. Halladsy, S. J. Arkells and Henry Carpenter. The balance of the term-trial jurors were excused until August 12. The plaintiff was on the stand all the afternoon, and was undergoing a severe cross-examination when court closed at 4:30 o'clock.

A COMING RACE.

Arrangements are being made for a bleyele road race around the "kite" on Saturday, August 3. This is one of the best racing routes in Southern California, Starting from the corner of Fourth and Main streets, in this city, the racers go due nouth amout three miles, then swing east through Grange and McPherson, thence south to Tustin, and from there back to the starting point, covering about twelve miles, in the trip, which makes just a nice distance to test wind, speed and endurance. The following cyclera are already entered; John Engel, like Fields, Z. J. Taylor, H. E. Bundy, Ed Kraemer, Earl Glenn and E. B. Sanford. The race will be a handleap, with a six minute limit, the handleappers being C. H. Olney, C. C. Monaghan and E. S. Wallace. Some good time is expected, and as there will be three time and seven place prizes the contest will be red hot. Arrangements are being made for

GOOD ROADS MOVEMENT. A movement has been inaugurated in Santa Ana toward organizing a "Good Santa Ana toward organizing a "Good Roads" club for the purpose of seeuring several graveled or macadamized highways in the county, if possible. It has been proposed to endeayor to induce the Supervisors to make an additional acent road levy each year, which would raise \$5000 annually for this purpose, to be used upon any highway to be determined upon. There should certainly be some such system adopted toward constructing permanent roads through the principal sections of the county.

HE WAS SATISFIED. John McCue was arrested Saturday for being drunk and disorderly, and was fined \$10 this morning by City Recorder Matthews. He was laboring under the impression that the money went to his captor, Night Watchman Graham, for whom he had acquired a great antipathy, but was abundantly satisfied when he found this was not the case.

ORANGE COUNTY BREVITIES.

Rev. E. G. Wheeler conducted a very successful meeting for men only at his car, the Emanuel, Sunday after-ernoon, and a union meeting at Spurgeon's Hall in the evening. He left this (Monday) afternoon for El Toro, where he will hold meetings for several days.

Rev. J. G. Cooper and wife and the Misses Anna Kernodle and Sallle Peabody left this (Monday) morning for F. D. Shefer's place, in Trabuco Canyon. The young ladies will enjoy a vacation of about ten days, while Mr. and Mrs. (Cooper will remain three weeks.)

Een Clapp caught the king of crayfish at Newport yesterday. The old fellow weighed ten pounds, and his "feelers" afretched nearly three feet. He was caught on a small hook and line, and it was necessary to tow him in to the beach.

Mr. and Mrs. I. N. Rafferty, the Misses Derham and Stevens, Mr. and Mrs. I. N. Rafferty, towned a pleasant picnic party to Newport beach todey.

Mrs. J. A. Tuiner and daughter, Lizic, accompanied by Miss. Marlanders. ORANGE COUNTY BREVITIES.

port beach todey.

Mrs. J. A. Tuther and daughter, Lizzie, accompanied by Miss Marian Lyons, departed this noon for Strawberry Valley, where they will remain about six weeks.

about six weeks.

Fishing at Newport beach Sunday night was exceptionally good, quite a number of knights of the rod pulling out fine strings of big mackerel until nearly midnight.

The steamer Mexico, which is running in the place of the Corona while the latter is being repaired, stopped at Newport, north-bound, Sunday.

Cok Epileman of San Diego, commanding officer of the Ninth Regiment, N. G.C., was in the city Sunday.

Rev. M. M. Klipatrick and Thomas

Rev. M. M. Kilpatrick and Thomas Walker are out a Tomato Springs to-day on a hunting expedition.

Dr. W. H. Hill was fortunate enough to draw the cast of wax flowers sold by Mrs. Kincade.

hy Mrs. Kincade.
Coroner George C. Clark of Fullerton was doing business at the county seat today.

L. Hache of the Chino beet-sugar factory was at the Brunswick Sunday.

Mrs. G. W. Greenfield has gene to Long Beach for a week's outing.

SANTA BARBARA COUNTY.

Team's Frightful Fall-Explosion

SANTA BARBARA, July 22.—(Regular Correspondence.) Juan B. Arsta of Santa Barbara met with an accident on Sunday afternoon that came near costing him his life. It appears that Arata was coming down the San Marcos grade with a two-horse wagon loaded with wood, when one of the horses lost his footing and precipitated the wagon load and other horse for the embankment for a distance of 300 feet. Arata as soon as he noticed the horse stumble, made a jump to the opposite side of the wagon and a little to the rear of it, thus saving himself from death or from having his bones broken. One of the horse was killed by the fall, and the wagon was smashed into splinters. The other horse is still alive, but so badly injured that it is thought that he carmot recover. The point at which SANTA BARBARA, July 22.—(Regu

Arata nearly met death is a very dangerous one, and it is suggested that the Supervisors of this country should place a rail originard there, so as to prevent further accidents. The spot where this catastropie, happened is known as White Rock, and is near the Ruiz place. SAN BERNARDINO COUNTY.

PHERNCALIFORNIANEWS

AN ERA OF INDUSTRIAL DEVELOP-MENT ENTERED UPON.

Ploneer Society Meeting-A Practica Lesson in Physics-News from the Salton Mining District-Other

EXPLOSION AT THE DEN MINE.

This morning at 7 o'clock an explosion took place at the La Patera, also known as the Den asphaltum mine, whereby a miner by the name of Burch was badly burned about the face, hands and arms. The machinery that works the blow pipes of the mine was out of order, so that no fresh air was being pumped into the mine. Whether this fact was made known to Burch or not is unknown, but nevertheless he went down into the mine with a lighted candle, which was the direct cause of the explosion. It is very strange that Burch was so careless as to take a candle, for he is supposed to be an expert asphalt miner, and he came to the Den mine for the object of introducing the Davy safety mining lamp. Though Burch is badly burned, he is thought not to be in any actual danger.

SANTA BARBARA BREVITIES. SAN BERNARDINO, July 22.-(Reg. ular Correspondence.) San Bernarding has entered on an era of industrial development. Lately two new furniture factories and a new foundry have been constructed, and now a door factory to be added to the list. W. T. Gregg, first-class carpenter from the northern part of the State, has recently invented a door and a screen, on which he ob-Bernardino as the most advantage point for their manufacture. mountain pine to be had in abundance here is admirably suited to his purpose and the shipping facilities more than ample. S. A. Commings Furniture Company will take hold of the manufacture of Mr. Gregg's patent for the present. They begin work this week to fill a large order from Los Angeles.

The Ploneer Society held an interesting meeting at the City Hall yesterday. The aged president, George Lord, who is 95 years old, was unable to attend, but hoped to be with them at their next meeting.

The last and only will of the suicide, william W. Cook, was placed on file Saturday. He left all his property to his daughter, Minerva E. J. Cook, and in the hands of O; R. Meuton for execution. here is admirably sulted to his purpos Miss Bernice Lowe, accompanied by her sister. Baby Lowe, left on Sunday, for a camping trip to Capt. Marish's for a camping trip to Capt. Marish's camp at Tecolote. On the evening of their arrival they were serenaded by the surveyors of the captain's party. Baby Lowe enjoyed the music as much as any of the party.

The Santa Barbarenos are busly engaged in completing arrangements for the reception of the excursionnists of next Saturday evening and afternoon. There will be no cetacean monster to be served up for their delectation, but they will see genery far superior to any ocean assimal that is known, and will be given an opportunity to visit scenes that will linger long in their memory. The musical and sporting programme is to be replete with sweet harmony and amusement. J. M. Crawley, assistant general passenger agent

in the hands of O; R. Meuton for execution.

The Pioneer' Abstract Company, under the firm of Sweesy & Grow has changed hands, and now is known as the Pioneer Abstract and Title Guarantee Company. John E. Light has the management of the new company and it is their intention to enlarge the scope and volume of the business and to accommodate the expected increase will erect at an early date larger and more commodious offices on the present site. Paul J. Mohr and family, formerly professor of mathematics, leaves for Berkeley Monday to accept a similar position in the Berkeley High School.

W. S. Hooper, cashler of the San Bernardino National Bank, accompanied by his wife, left yesterday for Long Beach.

J. H. Benson a prominent minima. harmony and amusement. J. M. Crawley, assistant general passenger agent at Los Angeles, sends word that the indications are that there will not be less than 2000 excursionists from Los Angeles, and diagent points. The Southern Pacific has provided for three traths of the 27th inst. at 8:15 a.m., 10 a.m., and 2 p.m., rispectively. The hotel facilities of Santa Barbara are ample for the accommodition of all the excursionists who may visit the Ceannel City pext Saturday. No one need stay away on that score. A royal reception will be given all who may come, and arrangements are being made to have the excursionists received at the station by a band of music.

A. A. Oglesby, District Attorney of this county, has gone to the San Marços ranch, in the Santa Ynez range, for a few days rest in the camp of Charles Hunt and other Santa Barbarenos.

Andres Soto, who is charged with an attempt to rape a child of shout 6 years of age, has been granted a new trial by Justice Gammill. The supposed offense is said to have been committed on June 6. The prosecution have a very weak case, the only witness being the child.

Stanley Hollister and Evan Hollister, sons of the late Col. W. W. Hallister.

W. S. Hooper, cashier of the San Bernardino National Bank, accompanied by his wife, left yesterday for Long Beach.

J. H. Benson, a prominent mining man from the Goler district, is in town with a big clear-up of dust.

H. A. Moore and Mrs. S. E. Adams of San Francisco are at the Stewart on their way to Squirrel Inn.

Three High School boys, Rosco E. Goodeell, Melvin Bradley, and Walter Jones, returned from a visit to the Union Ice Company's big plant at Crafton, where they had a practical lesson in physics, their favorite study, at the High, School, and where they learned how ice was made by evaporation.

J. N. Corbett, who led the party over the trails for the capture of Jerry Gardner, the murderer of E. H. Hendsch, was formerly a policeman of this city, a most excellent officer, and it is evident he has not forgotten how to catch a man, now that he is out of the regular harness. F. D. Richie, who was with the other party, is also from this city, now engaged in the mining business.

Fred Schindler of Centralia, Ill., is in the city the guest of his friend, Walter Kohl, clerk of the New St. Charles. He comes to California looking around for a place to go into business and thinks San Bernardino is good enough for him. R. T. Blow, Wells-Fargo agent, will take his annual vacation the first of August, taking his family down to Coronado for a week, and after his return they will go to Los Angeles for a few weeks' visit.

Judge Henry Goodcell, Jr., Judge A. Bronson and J. A. Whitmore, editor of the Times-Index, were the guests of Fred Wittrow at Santa Monica yesterday.

Sheriff Holcomb returned from San Antonio Canyon last night and records. the child.
Stanley Hollister and Evan Hollister,
sons of the late Col. W. W. Hollister,
are in the city on a visit to their mother
being lately arrived from Cambridge,
Mass. Mass.

It is suggested that it might be well to have the electric-lights lit on the boulevard during the visit of the excursionists. There can be no valid objection to illuminating the waterfront until midnight or even 1 a.m.

Your correspondent has been requested to suggest to the Santa Barbara Board of Trade the propriety of appointing a committee to meet the gentlemen of the Los Angeles Board of Trade at the railway depot on their arrival.

Commercial Hotel.

The following named persons are domiciled at the New Morris: C. L. Chamberlain, Tehachepi; Miss Lysie, Pittsburgh; Miss Ramsey, William M. Ramsey, Santa Paula; H. P. Winchell, San Francisco; W. T. Anderson, San Francisco; J. P. Sweeney, Boston.

The names of John E. Mitchell, San Francisco, and W. D. Chamberlain, Oakland, are noted on the Arlington register today.

The following named passengers leave tonight via the steamer Mexico for San Francisco; W. T. Anderson, B. F. Shields, M. Cordero, Mrs. T. M. Carr, Mrs. F. A. Finley, H. P. Winchell, P. R. Wright, J. C. Braendlin, Alfred Hall.

Fred Wittrow at Santa Monica yesterday.

Sheriff Holcomb returned from San Antonio Canyon last night and reports a good supply of fish as the result of his short trip.

Joseph Brown returned yesterday from the desert country north of Salton, where he has been spending several weeks in the Bill McKinley mining district, which is attracting much attention on account of its isolation and the scarcity of water. It is a gold district and is located south of the Virginia Dale and about twenty-five miles from the railroad. It is partly in this and partly in Riverside county, as near as the lines can be located without actual partly in Riverside county, as near as the lines can be located without actual survey. There are a number of prom-lising prospects, but what is needed is a little road-building. It is so hot there now that many of the prospectors are coming in to wait for cooler weather.

AVALON (Catalina Island,) July 22.—
(By Homing-pigeon Missy of the Catalina Island Carrier-Pigeon Service to The Times.) One of the particularly pleasant features of Sunday at Catalina is the vesper service which is conducted in the band stand by the pastor of the Congregational Church, assisted by his congregation and visiting pastors and Christian people. Gospel hymns are sung, prayer and exhortahymns are sung, prayer and exhorta-tion lift the thoughts above the more worldly enjoyments of every-day life at the island. The service continues from 7 to 8 p.m., when the company of worshipers adjourn to the chapel, draw-ing with them a sufficient number of issually quiet and local happenings are few and far between in this fair little city.

The handling of the early varieties of peaches is now on, but the buik of this crop will not come in for ten days or two weeks yet, when pears will also be gin to be ready. This latter crop, however, will be short this season.

Oscar Hibbard, who, with his family, removed from Pomona about five years ago to the mining district near Vanderbilt, is now in his old Pomona home for a few days. He reports things as rather quiet ir that section, saying that but few of the mines, save the Montgomery, are more than paying current expenses. The Unitarian Church series of Sunday-night lectures have now been finished, and the usual summer vacation in this place of worship will be taken.

Miss Flora Whipp, one of Uncle Sam's efficient force in the Pomona postoffice, has returned from her ten days' outing at Los Angeles and at the beach.

Prof. Falls's salary has been increased by the Board of Education for next year as a teacher in the Pomona public schools. ing with them a sufficient number of people to quite fill the building. This week a series of Bible readings have been introduced, conducted by a Scotch evangelist. Each merning at 8 o'clock a Bible reading is conducted on the beach just beyond the bath-house, and at 4 o'clock p.m. another is held in the church. There will also be preaching service by these evangelists each evening this week in the church. A SUNDAY EVENING YACHTING PARTY.

A. C. Roscoe of the Metropole arranged a delightful yachting party last evening, about twenty-five enjoying the trip in the San Diego. After a two-hour sail which was enlivened by local music from the gay party and so los by Capt. Summer and A. C. Roscoe, the party came ashore and enjoyed a junch in the Metropole dining-room as a wind-up to the festivities. The guests included Mr. and Mrs. F. W. Cd-rey, the Missas McCres, Mrs. Crouch and Miss Crouch, Miss McCarthy, Miss Weinsheimer, A. P. Chipron, Miss Fern, A. W. Howard, W. B. Nicholson, Mrs. Reene, Miss Smith, C. A. Barker, Messrs, Hubbard, H. B. Goodwin and S. W. Butcher.

The La Paloma made her initial trip yesterday afternoon with the following party, on invitation of F. H. Lowe, Maj. and Mrs. Duncan, Mrs. J. E. Plater, Miss Wallove, Messrs, J. H. Schumacher, Tenney, Henry, W. R. Tis a boon to the baldneader, Smith's Dandruff Pomade.

What is

CASTORIA

Casteria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea-the Mother's Friend.

Castoria.

"Castoria is an excellent med dran. Mothers have repeatedly told me of its good effect upon their children."

Lowell, Mass "Castoria is the best remedy for children of, which I am acquainted. I hope the day is not far distant when mothers will consider the real

terest of their children, and use Castoria ininterest of their children, and use Castoria in-stead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending DR. J. F. KINCHELOR

ment have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor mon it." favor upon it."

A BIG CATCH. J. Neale Plumb of New York is fast making a big fishing record for himself. Yesterday at 8:30 a.m. Mr. Plumb and a party of invited guests left on the Fleetwing under command of Capt. McDonnell for a fishing cruise. They returned at 3 p.m. with seventy-five yellowtail and barracuda as a result of the day's sport. Mr. Plumb attributes the phenomenal catch to the presence of a Los Angeles mascotte. Mr. Plumb was so impressed with this idea in fact, that he offered the party \$300 a month to remain with him and live on the fat of the land, and goat. But the mascotte wanted \$3000 and so Mr. Plumb concluded to do without such an expensive luxury and saw, with tears in his eyes, the mascotte depart on the 4 o'clock boat yesterday. Mr. and Mrs. Penning, Mrs. C. B. Poncells, F. M. Poncells were of the party. J. Neale Plumb of New York is fast

TO THE ISTHMUS. The following party enjoyed a trip to the Isthmus and over the stage road to Little Harbor today, lunching at the Little Harbor Inn on the other side the island: Mr. and Mrs. Johnson, Mr. and Mrs. S. PROPOSITION FROM THE CALIFOR-NIA BUILDING OWNERS.

o Settle the Difficulty Space at the Fair is Offered Gratis to the Los Angeles Chamber of Com-

At a special meeting of the board of directors of the Chamber of Commerce held yesterday afternoon, the following were present: President Patterson, Directors Cline, Cohn, Vetter, Parsons, Mullen and Klokke. The president stated that the special purpose for which the meeting had been called was to consider a proposition which had to consider a proposition which had been made the chamber with regard to the California building at the Atlanta Exposition, and to decide whether the chamber would undertake the work of raising the funds and gathering the ma-terial for an exhibit

terial for an exhibit.

The secretary read a letter which had been sent to the parties who own the exclusive privilege of constructing the California building at the fair, in which it was stated that the chief objection to the chamber's exhibiting in such a building was that it was a private enterprise, and that there was no satisfactory assurance that suitable rules would be enforced to make it a creditable display of California products, and suggesting that the management of the building be turned over to some organization which could have control and enforce proper regulations. erial for an exhibit.

ganization which could have control and enforce proper regulations.

In reply to this letter, the following had been received from the holders of the California building privilege, which was read by the secretary:

LOS ANGELES (Cal.,) July 20, 1895.

C. D. Willard, secretary, city. Dear Sir: We have your communication of July 19, and we note your suggestion that we turn over the proposed California building to some organization of exhibitors.

July 19, and we note your suggestion that we turn over the proposed California building to some organization of exhibitors.

We are loth to accept your suggestion in the exact form in which you put it for the reason that at the present writing we do not know what counties are going in, nor who the exhibitors are to be, and while we might expect them to deal fairly with us, and not lay down extravagant and impossible conditions, yet we do not know what kind of. men might go into the association, and can hardly, under these circumstances. But there is one organization that we are thoroughly acquainted with, and in which we have implicit confidence, and that organization is the Los Angeles Chamber of Commerce. We are perfectly willing to place this entire building in the hands of your organization, to accept Mr. Wiggins as superintendent of the building, and yourself as secretary of the organization at this end of the line, and your board of directors as an overseeing body to advise with you gentlemen. We will give you without charge 2000 feet in any part of the building you desire to select, and allow you, in consultation with us, to allot the space, to plan the rules in just such shape as you see fit, and we make this proposition with perfect confidence that if it is accepted, you will deal fairly with us, and with all the exhibitors, both public and private, and that the result will be a California display of which we shall all be proud.

Will you kindly take this matter up with the board of directors at your earliest opportunity, and inform us the result.

(Signed) MRS, S. C. DOOLEY,

with the board of directors at your earliest opportunity, and inform us the result.

(Signed) MRS. S. C. DOOLEY,
J. A. GORMAN.

There was some discussion of the proposition, the board being in some doubt as to whether the Supervisors of the county were disposed to assist in the project of making an exhibit, but it was finally moved and carried that, provided the Supervisors of the county lent a reasonable degree of aid, the Chamber of Commerce would undertake to raise by subscription the sum necessary to make a creditable display for Los Angeles county, and would accept the space offered in the building, and would oversee the general management of the building in accordance with the suggestions given them in the letter.
